**American Plan  
Now on Trial**

By J. E. JONES  
 WASHINGTON, D. C., February 17  
 —When there is unusual unemploy-  
 ment in the country it becomes a  
 serious condition that concerns ev-  
 erybody. It puts the buying and  
 selling basis of the American plan  
 to tests like those of today. These  
 are not only economic problems but  
 also human problems of major im-  
 portance. That's why government  
 leaders and large and small busi-  
 ness men have been gathering in  
 Washington. The people of our Na-  
 tion in every walk of life are in-  
 volved in the existing recession.  
 The American plan has resulted in  
 giving the people of the United States  
 more than any other country. In  
 the United States there are 178  
 radios per thousand persons; in  
 Germany 108; in Italy 12. Other  
 countries are years behind us in  
 what we call technological progress.  
 They can't make as good machines  
 as we use; they are far behind us  
 in inventions and in scientific  
 achievements. They look upon us  
 as a rich, prosperous, luxury-loving  
 people. Maybe they are right to a  
 certain extent. At least we have  
 more telephones, electrical appli-  
 ances and automobiles than any  
 other people. In the United States  
 there is an automobile for every 4½  
 persons; in England one for every  
 20; Germany one for 49; Russia  
 one for 479.

It looks like a good omen that  
 the first piece of major legislation  
 completed at this session of Con-  
 gress will make it possible for mil-  
 lions of people who never hoped  
 to have homes of their own, to get  
 them under the extension of the  
 American system. This new act  
 enables the government to loan 90  
 per cent of the cost of building a  
 home.

American industry has produced  
 a standard of living never attained  
 before by any people in history. Il-  
 lustrating how wages can be in-  
 creased and prices lowered we have  
 the outstanding statistical infor-  
 mation that from 1925 to 1937 au-  
 tomotive hourly wages went up 10  
 per cent, and in the same period of  
 time automotive prices came down  
 45 per cent. It was the automobile  
 industry that led the procession, by  
 the American plan, out of the last  
 depression. At this moment that in-  
 dustry is being regarded as the  
 great hope of the government and

**LAS VEGAS WEATHER**

Following are the maximum and  
 minimum temperatures as registered  
 by the thermometers of the U. S.  
 cooperative weather station in this  
 city for the dates shown:

	Max.	Min.
Feb. 11	71	45
Feb. 12	61	37
Feb. 13	64	28
Feb. 14	62	41
Feb. 15	63	40
Feb. 16	55	36
Feb. 17	58	30
Feb. 18	51	25

 Cooperative Observer.

**Nevada Shelter  
For Tax Weary**

Definite proof that many tax-  
 weary citizens are seeking shelter  
 in Nevada from oppressive taxation  
 was shown by the individual in-  
 come tax returns filed with the bu-  
 reau of internal revenue.

Ivan Jeffries, assistant collector  
 released figures for the fiscal years  
 1936 and 1937 which revealed an  
 increase in the filings of individual  
 receipts of 68 per cent.

"There appears to be no doubt,"  
 Jeffries concluded "that Nevada's  
 freedom from taxation is drawing  
 more and more persons to the state  
 to establish their residences and po-  
 tect their incomes."

Paid individual tax receipts for  
 the past year totaled \$1,709,681  
 compared with \$1,204,124 for the  
 1936 fiscal year. The figures rep-  
 resent actual paid income taxes and  
 do not include delinquents.

"Of the nine states of smallest  
 population with which Nevada is  
 grouped," Jeffries explained, "we  
 have a greater filing of individual  
 returns than any of the other states  
 listed under the same classification  
 except one."

"Freedom from taxation is Ne-  
 vada's one big asset, and it is safe  
 to assume that this is the reason  
 for the decided increase in individ-  
 ual filings."

of the busines world to turn the  
 tide upward and to again prove  
 that though the American plan hes-  
 itates it does not fail. This indus-  
 try strides on to higher achieve-  
 ments.
