To Finish Road To Death Valley

Grading and oil surfacing on the Lone Pine-Death Valley National Monument state highway between a point 4.75 miles east of Panamint sink and the summit of Townes pass at the monument boundary is scheduled for completion about April 1, the Automobile Club of Southern California is advised. Traffic is being maintained on the existing road, as all construction is on new alignment.

Forensic League Contest Changed

The Nevada state high school forensic league tournament originally scheduled for April 21, 22 and 23 has been advanced to March 24, 25 and 26 to avoid conflict with the state school music festival to be held at Las Vegas.

League Director Robert Griffin said the tournament will be held at the University of Nevada as originally planned and will attract representatives of nearly all the state high schools.

DELIBERATE DESTRUCTION OF PRIVATE PROPERTY

If government officials were authorized to visit the homes of 200,000 American citizens and callously confiscate or destroy furniture, radios, food, clothing, the family automobiles and anything else that came under their hands, there would be an indignant uprising. The nation would forthrightly demand repeal of the law permitting such an outrage.

And yet, as incongruous as it may sound, this is, in effect, exactly what is happening in the struggle between the Tennessee Valley Authority and the Commonwealth and Southern Corporation. The effect of the political drive for government ownership of electric power is to undermine and destroy the private electric properties in the Southeast by means of subsidized, tax-free, unregulated competition. It is on the verge of "success" for the simple reason that no private enterprise can compete in business against government.

And now, "as a last resort in a desperate situation" the President of the Commonwealth and Southern has offered to sell the properties of his companies affected by TVA, as integrated systems to the government or the individual states in which the systems operate. Government spokesmen have so far indicated no willingness to purchase

Nevada Leads In Repayments

One hundred and three of a total of 1206 Home Owners Loan Corporation loans have been repaid in Nevada, according to announcement made Saturday by J. H. Bradshaw, Nevada office manager. The amount repaid totals \$606,421 on a total of \$3,300,000.

The Nevada liquidation percentage increased 9.1 per cent during the past 12 months, making the record for the state the best in the country, Bradshaw said. Nevada also ranks first in the percentage of accounts liquidated with a figure of 8.5 per cent.

the entire properties of individual operating electric plants. Instead they simply wish to purchase the best parts of certain companies and leave the rest to struggle along as best they can like a crippled horse. Utterly no consideration is given to the more than 200,000 persons whose hard-earned savings are invested in the securities of the companies affected.

This may be within the letter of the law, but wherein does it differ in principle from entering a man's home and confiscating his personal belongings?
