Lake Equipped To Launch Boats

Southland boat owners who plan to launch crafts on Lake Mead are advised that Hemenway wash near Boulder City now has complete launching facilities, according to word received from the supervisor of the Boulder Dam recreational area.

At points between Boulder City and Overton the shore line is inaccessible and considerable risk would be involved in any attempt to reach the shore in that section. While the lake is reached easily at Pierce's Ferry and at Overton, facilities for launching are not provided.

Gasoline, oil, and other supplies are available at Hemenway wash and parked cars are under constant protection of patrolling rangers.

Archbishop John J. Mitty has donated to the World's Fair of the West several score trees from San Francisco properties and St. Patrick's Seminary at Menlo Park.

TEST, TEST AND TEST

AMERICAN industry, according to Consumers Information, surpasses that of any other country in its exact methods of testing products and so assuring maximum performance before passing them on to the user. One company reports, for instance, that 25% of its labor and cost of production goes into testing. Above are

shown tests of two of the 600 different operations which go into the manufacture of their vacuum cleaners. The young lady is balancing the fan, an intricate job in which she puts tiny drops of solder on the light side until the balance is perfect. Inset, operator testing air passage, suction power and wattage, on a government test-block.

Fluorescent lighting, shadow areas, luminescent and iridescent features, vapor effects, waterfalls, flaming pylons and other devices

will make the scene at night one of rare beauty on Treasure Island at the 1939 World's Fair of the West.
