KISS-O-METER

METER TELLS POWER OF KISS—A newly developed machine called a "Kiss-O-Meter" records the intensity of a kiss. The subjects grasp an electrode each and the machine records the intensity of their kiss, ranging from zero to 120. When the oscillation point hits 90, or higher, a bell rings.

PERFECT REFRIGERATION FOR WINNERS—Here's a technician making sure of perfect freezing in all of the three hundred Servel Electrolux refrigerators which will be awarded to ten fortunate winners each day, in the thirty P & G White Naphtha-Servel contests running daily, except Saturdays, Sundays and May 30th, from May 20 through July 1. Details are given on "The Guiding Light" radio program.

HOLDER of the biggest and most complex administrative job in the world. That's what Secretary of Agriculture (above) is called in an article in the Country Home Magazine analyzing the new AAA.

HIS MAJESTY ENJOYS A JOKE—King George VI enjoying a joke with Air Vice Marshal Gossage (left) and Capt. Orlebar, Commander of the Royal Air Force (right) at Northolt, England.

STERN-FACED DICTATORS CAN LAUGH—In high spirits at the conclusion of their conferences, Chancellor Hitler and Premier Mussolini exchanged their usually stern expressions for smiles and laughter as they rode through the streets of Florence, Italy.

FIRST LADY AND FIRST AIRMAIL PLANE—Mrs. Franklin D. Roosevelt, examining a model of one of the first air mail planes, when she officially opened Air Mail Week, commemorating the 20th anniversary of air mail flying in the United States.

Aquatic, First Aid Lessons On Red Cross Sked

"Learn by Doing," is the invitation to four First Aid and Aquatic Schools to be conducted by the made with local Red Cross Chapters—Arizona, California, Washington and Utah this summer, A. L. Schafer, Red Cross manager in the Pacific Area, announces.

The schools will be supervised by Edwin H. Carroll, director of First Aid and Life Saving in the Pacific Area. The first will be held at Tempe, Arizona, June 6 to 16. Others will be conducted at Gurnewood Park, California, June 20-30; Greenwood, Olympia, Washington, June 20-30, and at Como Springs, Morgan County, Utah, July 6-16.

The Red Cross Aquatic Schools each year are equipped to teach swimming and to give advanced life saving instruction to water experts and key persons responsible for the public safety at camps and summer resorts. The courses include: First Aid and Accident Prevention, Life Saving, Swimming, Diving, Boating, Canoeing and Recreational Swimming. Attention also is given to instruction in the production of pageants and water circuses, to games for pools, camps and beaches—subjects of interest to students interested in the recreational side of welfare work.

The faculty of each school comprises outstanding leaders in physical education and aquatics. A dean of women will be present to look after the comfort of the feminine group while a Red Cross nurse will properly safeguard the health of all.

Enrollments for any one of the four schools in the West may be made with local Red Cross Chapters. Mr. Schafer also says that the National Red Cross will conduct five similar aquatic school in the Midwestern Area and six in the Eastern Area during June, July and August.

PYTHIAN SISTERS INSTITUTED HERE

Charleston Temple Number Two of the Pythian Sisters was instituted in Las Vegas Saturday afternoon, May 14. The work over the order was exemplified by past Grand Chiefs from every lodge in the state.

Mrs. Joy Shafer of Sparks was the installing officer and she was assisted by W. R. McDonald, senior supreme representative.

The Las Vegas Lodge was instituted with 23 charter members. The officers who will serve Charleston Lodge for the coming year are:

Margaret Bigleman, most excellent chief; Ida C. Gare, excellent senior; Frances Hall, manager; Helen Lewis, protector; Florence Sleeper, outer guard; Twila Grafton, mistress of records and correspondence; Inez Orton, financial secretary.

Following the installation ceremonies dinner was served to the visitors by the local members. The women of the Reno and Sparks lodges presented the new lodge with the paraphenalia used in emulating the ceremonies.

Mohawk Mine Is World's Premier

F. E. Browne, who has seen a lot of mining in Aspen, Cripple Creek, Goldfield and other western mining districts in his profession as a mining engineer, says that the Mohawk mine at Goldfield, Nev., not only holds the first rank for the highest grade carload of ore ever shipped, but it is also the premier gold mine of the entire world when the time element and gross value of the ore are considered. During the early

part of 1906 the Goldfield Mohawk Mining Co. had granted about nine leases to various leasers and it was stipulated in the leases that they were to expire Jan. 1, 1907. Due to labor troubles an unforeseen contingencies the expiration date of the leases was extended by the lessor company to Jan. 8, 1907, upon which date all underground work must cease.

The first ore on the Mohawk was discovered during April 1906 and by Aug. 1 ore having a gross value of \$546,089 with gold at \$35 had been shipped. About the first of August production started on a big scale and by Jan. 8, 1907, there had been produced a total of \$11,086,000 mak-

ing the average daily production for the 160 days \$68,978. Hayes & Monnette discovered a particularly rich ore shoot and for a number of days their production was at the rate of \$101,500 a day. From Aug. 1, 1906, until the time of the expiration of the leases Jan. 8, 1907, it can safely be stated that at least \$1,700,000 was stolen by high graders.

When the legitimate production and the stolen production are combined it makes the total gross value of the ore from Aug. 1, 1906, to Jan. 8, 1907, \$12,736,560, which is equal to 12.47 tons of pure gold produced in 160 days.
