

CHURCHES

FIRST CHURCH OF CHRIST SCIENTIST

316 South Fourth Street, across from grammar school, is a branch of The Mother Church, The First Church of Christ, Scientist, Boston, Massachusetts. Meets every Sunday at 11:00 a.m. and Wednesday at 8:00. Sunday School at 9:30.

Christian Science reading room 112 North Third street, open Monday, Wednesday and Saturday afternoons except holidays, from 1:15 p.m. until 4:15 p.m. Evenings, Tuesday, Thursday and Friday from 7 until 9 o'clock.

"SUBSTANCE" will be the subject of the Lesson-Sermon in all churches of Christ, Scientist, Sunday, September, 11, 1938.

The Golden Text is from Matthew 5:6, "Blessed are they which do hunger and thirst after righteousness: for they shall be filled."

The Lesson-Sermon includes the Bible passage, "Lay not up for yourselves treasures upon earth, where moth and rust doth corrupt, and where thieves break through and steal." (Matt. 6:19).

Also the correlative from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy. "Man walks in the direction towards which he looks, and where his treasure is, there will his heart be also." (p. 451).

ORDINANCE NO. 242

AN ORDINANCE REGULATING THE SALE OF MILK, CREAM AND OTHER DAIRY PRODUCTS IN THE CITY OF LAS VEGAS; DEFINING STANDARDS FOR MILK AND CREAM; PROVIDING FOR THE ISSUANCE OF PERMITS FOR THE SALE OF MILK AND CREAM, AND THE REVOCATION OF SUCH PERMITS; PROVIDING FOR THE CREATION OF A MILK ORDINANCE COMMITTEE; PROVIDING FOR THE APPOINTMENT OF A DAIRY AND MILK INSPECTOR; AUTHORIZING THE CITY COMMISSIONERS TO PROMULGATE RULES AND REGULATIONS FOR THE ENFORCEMENT OF THIS ORDINANCE; PROVIDING A PENALTY FOR THE VIOLATION OF THIS ORDINANCE; REPEALING ORDINANCE NUMBER 200 OF THE CITY OF LAS VEGAS, ENTITLED, "AN ORDINANCE REGULATING THE SALE OF MILK, CREAM AND OTHER DAIRY PRODUCTS IN THE CITY OF LAS VEGAS; DEFINING STANDARDS FOR MILK AND CREAM; PROVIDING FOR THE ISSUANCE OF PERMITS FOR THE SALE OF MILK AND CREAM, AND THE REVOCATION OF SUCH PERMITS; AUTHORIZING THE CITY COMMISSIONERS TO PROMULGATE RULES AND REGULATIONS FOR THE ENFORCEMENT OF THIS ORDINANCE; PROVIDING A PENALTY FOR THE VIOLATION THEREOF; AND REPEALING ALL ORDINANCES AND PARTS OF ORDINANCES IN CONFLICT THEREWITH;" AND REPEALING ALL ORDINANCES AND PARTS OF ORDINANCES IN CONFLICT WITH THIS ORDINANCE.

The Board of Commissioners of the City of Las Vegas do ordain as follows:

Section 1. DEFINITION OF TERMS: That for the purpose of this Ordinance the standard of milk, cream, buttermilk, skimmed milk and pasteurized milk, and ice cream, sold or offered for sale in the City of Las Vegas, whether in retail or wholesale quantities, is hereby defined as follows:

(a) Milk in its natural state is the fresh, clean, lacteal secretion obtained by the complete milking of one or more cows, or other recognized milk producing animals, properly fed and kept in a healthy condition and free from clinical symptoms of any infectious or communicable disease as determined by physical examination at least once each year; and free from tuberculosis, mastitis and Bang's disease; excluding such secretion for a period of fifteen (15) days before calving and for a period of five (5) days after calving; containing not less than 3.50 per cent milk fat, and a total of milk solids of not less than 12 per cent; and produced under conditions that comply with the sanitary requirements established by the Las Vegas City Milk Ordinance Committee.

COWS. TUBERCULOSIS AND OTHER DISEASES. (1) A physical examination, tuberculin and Bang's disease test of all cows shall be made before any milk therefrom is sold, and at least once every twelve months thereafter by a duly licensed veterinarian approved by the Sanitary Inspector or by the state livestock sanitary authority, and said tests shall be made in accordance with the rules now or hereinafter in effect adopted by the Board of Health of the City of Las Vegas. Any and all raw milk sold as such in the City of Las Vegas shall be produced from State Accredited Bang's disease free herds.

A certificate signed by the veterinarian and filed with the Sanitary Inspector shall be the only valid evidence of the above tests. Every diseased animal shall be removed from the herd at once and no milk from diseased cows shall be offered for sale. All reacting animals shall be isolated at once and immediately excluded from the premises. All animals failing to pass the T. B. or Bang's disease tests shall be branded with the letters "T" or "TB" or "B" on the shoulder hip or jaw, and removed at once and slaughtered under the direction of the Sanitary Inspector. Each letter in the brand shall be not less than two inches high and one and one-half inches wide. Fur-

ther; herds where reactors are found shall be retested each thirty (30) days, until two (2) consecutive clean tests have been made.

DAIRY BARN (2) Lighting. Such sections of all dairy barns where cows are kept or milked shall have at least three square feet of window space for each stallion.

(3) AIR SPACE. Such sections of all dairy barns where cows are kept or milked shall have at least four hundred (400) cubic feet of air space per stallion, and shall be well ventilated.

(4) FLOORS. The floors and gutters of such parts of all dairy barns in which cows are kept or milked shall be constructed of concrete or other equally impervious and easily cleaned material approved by the Sanitary Inspector and shall be graded to drain properly, and shall be kept clean and in good repair. No horses, pigs, fowls, etc., shall be permitted in parts of the barn used for dairy purposes.

(5) WALLS AND CEILINGS. The walls and ceilings of all dairy barns shall be whitewashed once each year or painted once every two years, or finished in a manner approved by the Sanitary Inspector, and shall be kept clean and in good repair. In case there is a second story above that part of the barn in which cows are kept or milked, the ceilings shall be tight.

(6) COW YARD. All cow yards shall be graded and drained as well as practicable and kept clean.

(7) MANURE DISPOSAL. All manure shall be removed and stored or disposed of in such manner as best to prevent the breeding of flies therein.

(8) MILK HOUSE OR ROOM. CONSTRUCTION. There shall be provided a separate milk house or milk room for the handling and storage of milk and the washing and sterilization of milk apparatus and utensils, provided with a tight floor constructed of concrete or other impervious material and graded to provide proper drainage. The walls and ceilings of the milk house or room shall be of such construction as to permit easy cleaning and shall be painted at least once each year or finished in a manner approved by the Sanitary Inspector. The milk house or room shall be well lighted and ventilated and all openings effectively screened to prevent the entrance of flies, and shall be used for no other purpose than the handling and storage of milk or milk products and other operations incident thereto. The cleaning and other operations shall be so located and conducted as to prevent any contamination one to the other. The milk room shall not open directly into the barn or into any room used for sleeping or domestic purposes.

(9) CLEANLINESS AND FLIES. The floors, walls, ceilings and equipment of the milk house or room shall be kept clean at all times. All means necessary for the elimination of flies shall be used.

(10) TOILET. Every dairy farm shall be provided with a sanitary toilet constructed and operated in accordance with the ordinances of the City of Las Vegas.

(11) WATER SUPPLY. The water supply shall be easily accessible, adequate, and of a safe sanitary quality.

(12) UTENSILS. CONSTRUCTION. All containers or utensils used in the handling or storage of milk or milk products must be made of non-absorbent material and of such construction as to easily be cleaned, and must be in good repair. Joints and seams shall be soldered flush. All milk pails shall be of a sanitary design approved by the Milk Ordinance Committee and Milk Inspector.

(13) CLEANING. All Containers and other utensils used in the handling, storage or transportation of milk and milk products must be thoroughly cleaned after each usage.

(14) STERILIZATION. All containers and other utensils used in the handling, storage, or transportation of milk or milk products shall, between each usage, be sterilized with steam or chlorine or in a manner conforming to the rules now or hereafter in effect adopted by the Board of Health of the City of Las Vegas, Nevada.

(15) STORAGE. All containers and other utensils used in the handling, storage or transportation of milk or milk products shall be stored so as not to become contaminated before again being used.

(16) HANDLING. After sterilization no container or other milk or
