

LAS VEGAS AGE

SOUTHERN NEVADA'S LEADING NEWSPAPER

VOL. XXXIV.

LAS VEGAS, NEVADA, FRIDAY, OCTOBER 14, 1938

NUMBER 41

Oddie Lauded In Campaign

The almost instant popularity with which former Senator Tasker L. Oddie was received on his recent hasty tour of Nevada recalls to old-timers the campaign of 1910 when Oddie first became a candidate for Governor.

In that campaign, Oddie in his typically earnest manner, started right out doing things. And the first thing he did was to go out in the back yard where his automobile was standing, take a saw and cut off the heavy tonneau, and strip off such other parts as could be spared without interfering with the running qualities of the car.

In those days there were no improved highways as we know them now. A trip by automobile from Reno to Las Vegas, for example required two long, hard days if your car held together that long, with many changes of tires and many repairs for the inevitable mishaps.

So it happened that Oddie attempted to tour the state by automobile in the days when automobiles were still curiosities beset with many dangers and difficulties, the excessive cost of gasoline being one of the serious difficulties. So in every camp in the state visited by Senator Oddie in the "Sawed-Off," the miners banded together and filled the tank with gasoline and loaded all the machine would carry, in cans, on the back.

In his recent tour Senator Oddie drove his car with enclosed "station wagon" body and, although highways and conditions of travel have been completely changed since that memorable campaign of 1910, he carries his bed roll and is able to sleep out beside the road whenever convenience requires.

And, although conditions in respect to automobile travel have changed, the old miners in every camp in the state are again receiving Senator Oddie with enthusiastic offers of support.

Clark County is said to be the least favorable to Oddie's candidacy in the state at this time. Nevertheless, in his short stay here he revived old friendships and received enthusiastic support from hundreds of people who remember his long and loyal service to southern Nevada both as Governor of the State and United States Senator.

It is now nearly six years since Oddie in the United States Senate completed a career of successful and practical achievement which produced more real and tangible benefits for the State of Nevada, especially for Clark County, than

Recreation Head Funds Refused

The city commissioners came in Monday night for a scathing demand for funds with which to keep the recreational program in operation.

The city commission a short time ago, due to the lack of funds in the city treasury, dispensed with the services of E. F. Tandy, recreational supervisor. Removal of Tandy seemed to be the center of the controversy. The mayor held that the city could not at the present time, in the face of a drastic retrenchment program, continue the services of a recreational supervisor. The mayor cited the demand of taxpayers that spending of city funds be limited to necessary expenditures.

The commission took the request of further funds for the recreation department under consideration and promised a definite answer in the near future.

Taxpayers Hold Meet Thursday

Las night's meeting of the newly organized Taxpayers' Organization proved somewhat of a disappointment to the hundred people gathered in the district court room.

Leo A. McNamee, head of the organization, opened the meeting. Pat Cline, former assemblyman, offered a document in which he stated that under his plan the taxpayers could make a saving of \$75,000.00 per year.

Others to address the meeting were D. G. Lorenzi, Mrs. Nettles, Mr. Wilmot, Pete Pansy, Marlon Earl, Pat Cline, Bryan Bunker, and Paul Ralli.

After a rousing plea for signers on the organization petition at 25c each, the meeting was adjourned, to meet again in two weeks.

Sanitation Of Cafes Sifted

The city commission has under consideration the adoption of a sanitation ordinance to govern the restaurants and eating places within the city limits. The city has been the target in the past few months of many complaints on sanitary conditions of some of the smaller cafes. It is with a view of correcting unsanitary conditions that the commission instructed Dr. W. R. Smith to study the matter and report back to the board.

TALK ABOUT FISH STORIES

Early this week Abe Levy of the Fremont Tavern went fishing on Boulder Lake. When Abe came home he told the usual yarn about the big one that he almost got. It was "so long," insisted Abe, "and must have weighed at least 5 pounds." According to his story, he had the big bass almost in his net when the line broke.

Not discouraged Abe went back on the lake the next day, and believe it or not—attention Mr. Ripley—Abe hooked a five pound bass. This thing of catching a five pound bass is not uncommon—but, still hooked in the bass' mouth was Abe's hook, leader and part of his line. And remember that the lake is 115 miles long and is the home of millions of the big bass.

Vegas Bourbon Rally Monday

The scheduled democratic rally announced for Saturday night in Las Vegas has been postponed until Monday evening, according to Archie Grant, democratic county chairman.

The delay was caused by the inability of Senator McCarran and Judge Carville to be present on Saturday.

It was stated by Grant that the meeting planned for Boulder City will take place on Sunday evening. The schedule calls for meetings in Bunkerville on Monday morning at 10; Mesquite in the afternoon at 2:30 and Tuesday afternoon in Overton at 2:30.

The Las Vegas meeting will be held in the Eagle's Hall on Fremont street and loud speakers will be installed so that those not able to get into the hall can hear the speakers.

Supreme Court Denies Mandamus

As a result of the Supreme Court ruling, the names of only H. E. Hazard, Berkely L. Bunker, C. H. Sloan and Thomas Carroll will appear as democrats on the November ballot along with that of Neal Campbell, republican.

The Supreme Court decision came as a result of a mandamus action instituted by Pat Cline, who was defeated at the primary election for assemblyman. Cline attempted to force the names of at least seven democrats to be placed upon the ballot.

City Denies Game License

The city commissioners Thursday night stood pat upon their decision to limit the number of gambling places within the city to five. Heated debate marked the request of the Bank Club for a license to operate.

Commissioner Coradetti was not in favor of establishing what he termed a "monopoly" in the gambling of the city. After a ten minute discussion of the matter, commissioner Luce moved that the application be denied. The motion was seconded by commissioner Ronnow and passed.

Many protests have been made to the city commissioners that the number of licenses for gambling be limited to five. This was suggested to the commissioners in the belief that a limited number of gambling clubs could operate successfully and thereby assure the city a proper revenue.

It was pointed out that the city will continue its policy of seeing that every game operated within the city is conducted upon a fair basis. "Control of these games" said Mayor Marble, "will assure visitors within our city of receiving a square deal in the gaming houses."

Secretary Ickes, Party Visit Dam

Secretary of the Interior Ickes, accompanied by Mrs. Ickes, arrived in Las Vegas today for an inspection of Boulder Dam.

The Secretary of the Interior also had in his party John C. Page, Commissioner of Reclamation and Congressman J. C. Scrugham and Nevada. After the inspection trip to the dam, the Secretary and his party will motor to Riverside, Cal., for inspection of the Sherman Indian School. Congressman Scrugham will remain in Las Vegas a few days.

CALIENTE PAIR HURT

Mrs. Evelyn Jennings of Caliente was seriously injured in an automobile accident Monday afternoon according to Tom Bellis, State Traffic officer. The accident occurred 40 miles north of Glendale on the road to Alamo. Mrs. Jennings, who was said to be driving the car, was taken to the Las Vegas hospital for medical aid. With Mrs. Jennings at the time of the accident was Tom Castle, also of Caliente. Castle was not seriously injured.
