SOUTHERN NEVADA'S LEADING NEWSPAPER

LAS VEGAS, NEVADA, SATURDAY, JANUARY 27, 1940

Watch for Friday issue of the Las Vegas Age Shopping News delivered at your door Friday afternoon. Phone Seven if you fail to get your copy.

VOLUME XXXVI.

NUMBER 4

OBSERVATIONS

By CHARLES P. SQUIRES

WISHING WELLS

Wishing wells are supposed to make wishes come true. Those erected on Fremont street are fulfilling their promise in more than one way.

In the first place, a lot of boys wanting some spending money, rigged a tobacco can to the end of a stick and, going into a huddle over the well, scooped out the coins easily. However, this won't be so easy hereafter, because screens have been placed down in the wells to keep marauders from the coins, and the police are constantly on the watch with orders to deal harshly with anybody molesting the wells.

In the second place, the wells are fulfilling hopes of those who planned and erected them by gathering in the coins in surprising numbers. Following the boy marauders, the authorities "harvested" the crop and took out a surprisingly large sum, considering the three days the wells had been operating.

The idea is now advanced that the wishing wells be made a permanent feature of Fremont street and, following the infantile paralysis campaign the funds contributed be devoted to other worthy causes.

TREE PLANTING AGAIN

After finishing something last week of the early tree-planting campaigns in Las Vegas, the activities of several tree enthusiasts were recalled to my mind.

The first of these incidents was following completion of the depot in 1905 and the laying out of the railroad park. The railroad company would furnish seeds for grass and flowers, but through some technicality we never understood, would not provide trees. Therefore the "park" made but a sorry showing, much to the distress of some of our citizens.

So Dr. Martin, Ed Clark and Chris Brown personally bought and paid for a batch of trees and planted them in the railroad park. Some of them are still growing there. The palms, if I am not mistaken, were included in that enterprise.

A year or two later, the "park" still lacking in water and grass, I one morning called on Mr. W. H. Bancroft, who was director of the Union Pacific in charge of the western lines, when he stopped in Vegas in his private car.

Mr. Bancroft was a distinguished figure, great in the railroad world, but inclined toward taciturnity. He just didn't talk much to comparative strangers, especially about the railroad business. Finally, however, I hit on a subject which interested him.

"Could the company do something toward improving the railroad park?" I asked as I pointed out the window at the dusty grounds adorned only with a few small struggling trees.

At once Mr. Bancroft was interested. He told me the interesting story of how he owed his opportunity to rise in the railroad service to a red rose. Back in Pennsylvania when he was station agent at an unimportant village, he put in his spare time caring for a lawn on the station grounds and had, among other things, some rose bushes, one of which had just opened a beautiful red rose.

An official, passing through, stopped to admire the rose and inquired who was responsible for so beautiful a railroad grounds. Young Mr. Bancroft modestly claimed the credit, explaining that he had done the work on his own time because he loved flowers.

Promotion followed promotion for the young man from that time on, and everywhere he went he made it a point to beautify the station grounds. "You ought to see the railroad parks on my unit of the U. P., the O.S.L.," he said. I am going to see that Las Vegas railroad park is a credit to the town."

Sure enough, a sprinkling system was installed, grass and more trees planted and a man assigned to the work of caretaker at the park. Ever since then the railroad grounds here have attracted the attention of travelers. Especially were people from the east astonished to see the palm trees. Most of them have never seen one before. So, although palm trees are not indigenous to this climate, those which have survived were worth all they cost.

Many of our citizens remember the campaign 10 years ago to raise money to improve the area given to the city for park purposes. The opinion of many was that the city could not afford to care for a park, besides there was no water for such purpose.

Mr. A. B. Witcher, then in the real estate business, and Dr. Roy Martin were among the enthusiastic boosters for a park, and they per-

(Continued on Page Four)

Vegas Pound Out 36-15 Win Over The Lynx

A vastly superior Las Vegas high school Wildcat basketball team pounded out a convincing 36-15 victory over the Lincoln high school county Lynx last night in the high school gymnasium.

Sparked by Bunker, who sank seven points in the first half and came back with two in the last half, to take high point scoring honors, the Vegas quintet looked much better than they have in previous weeks, although there is still room for improvement in the under the basket play.

Captain George Foley of the Las Vegas squad was easily the outstanding man on the floor, bringing the ball into play under all conditions and steadying the local boys when they were nervous.

Blake, outstanding forward for the Vegas team, registered eight points to take second high honors. Foley, Smith and Ballard conducted themselves in good fashion.

For the Lynx Mezzano, Jeffs and Anderson played good ball with Anderson copping high point honors in sinking three field goals.

The game was fast and from all appearances would develop into a free for all battle in the closing minutes of the game, but that was averted when Coach Pat Diskin substituted an entire new team, and tempers cooled off.

Starting lineups were:
Las Vegas— Lincoln High—
Blake F Mezzano
Ballard F Jeffs
Smith C Anderson
Bunker G Phillips
Foley G Ronnow

Substitutions: Vegas— Enright, Chavez, Crako, Brown, Fowler, Mather, Evans, Bunker and Trelease, Lincoln County high school— Stewart, Peck, Mathews, Cook and Pette. Officials for the game were Spears and Majors.

Vegas-Reno Air Line Hearing Set

The Public Service Commission of Nevada has ordered that a public hearing on the application of Condor Airlines of Nevada for a certificate of public convenience and necessity to operate scheduled airplane service between Reno, Carson City, Tonopah, Las Vegas and Boulder City, be had February 2, 1940, in the old supreme courtroom, capitol building, at Carson City.

Protests against granting the certificate have been received and the general public is invited to make its desires known.

City Band Dance Set for Feb. 14

The date of the dance planned for the benefit of the City Band has been set for Saturday evening, February 14, according to Business Manager Murray Golden.

The affair will be held at the Elks Club and will be one of the jolliest dances of the season. Excellent music will be provided by Director Johnson and a large crowd is anticipated.

MESQUITE CLUB ENJOYS PROGRAM

The program given at the Mesquite club under the direction of the program chairman, Mrs. Carl Rau, was very delightful. Vocal music was provided by a group of over 60 students from the Boulder City school under the supervision of Musical Director Brown. These numbers, together with the solos of young Jack Hurt, the possessor of a very beautiful voice, were greatly enjoyed. Don Erskine, junior naturalist of the Boulder Dam Park Area, gave a most interesting talk on the wonders of nature which are found within a day's ride of Las Vegas. His talk was illustrated with colored films.

Miss Clarice Craner told of the work and ideals of the Camp Fire Girls, of which she is the leader and which the club is sponsoring. Coffee and cookies were served during the social hour which followed.

ART EXHIBIT AT WAR MEMORIAL

The Kappa Chapter, Beta Sigma Phi, is sponsoring an exhibit of the work of local artists at the War Memorial building Saturday from 2 to 5 and Sunday from 1 to 5. There will be no admission price and tea will be served Sunday afternoon. The public is invited to attend.

KENTUCKIANS GUESTS AT THOMAS HOME

Mr. and Mrs. Roscoe Thomas are entertaining Mr. Thomas' mother, Mrs. Molly Thomas, and niece, Miss Frances Weber, of Monterey, Kentucky.

Vegan Enlists in Field Artillery

Cecil E. Howard, 3 West 8th St., Las Vegas, enlisted in the United States Army on January 20 for service in the 76th Field Artillery with station at Fort Francis E. Warren, Wyoming.

Howard made application for enlistment through the Las Vegas recruiting office on January 17 and was tentatively accepted on that date, Colonel Lippincott, in command of the headquarters Los Angeles recruiting district, said. He was formally enlisted at Fort McArthur, Calif., and will be sent without delay to Fort Francis E. Warren.

Annual Meeting Vegas Birthday

The Chamber of Commerce will hold its annual meeting and dinner March 16, at which time the newly elected officers will be installed and the 29th birthday of the incorporation of the city of Las Vegas celebrated.

K. O. Knudson and City Commissioner Gilbert will work out the details of the affair.

The city charter was approved by the legislature and signed by Governor Oddie March 16, 1911. The Clark county delegation in the legislature consisted of Senator George Bergman and Assemblymen Willard L. Jones and James T. Donohue.

The charter had been patterned after the Des Moines commission form of city government, then a new idea. It was formulated by a committee of Las Vegas people meeting at least once a week for several months in the office of Judge Lillis. The document was taken to Carson City by C. P. Squires, a member of the charter committee, who explained it in detail to the legislative committees after it was introduced in the assembly by the Clark county delegation.

Governor Oddie presented the pen with which he signed the charter bill to C. P. Squires and sent a congratulatory message to the people of Las Vegas, in part as follows: "I wish to convey through you to the people of Las Vegas my hearty congratulations on what they have accomplished, and my sincere wish that they may continue to prosper and reap the rewards they so richly deserve."

"I have full faith in the future greatness of your city."

LAS VEGAS SYMPHONETTES

Putting on finishing touches for the "Enchanted Forest" to be given at the Boulder theatre Sunday afternoon, kept the orchestra busy and on their toes during their rehearsal Tuesday evening at the Mesquite club.

During intermission a lovely program was presented. These are surprises to all but the performers and program arranger, Sylvia Harris, as each week there is something to look forward to.

This week's surprises were especially enjoyable because of their excellent performance and variety. A military dance by Joy Wells, violin solo by Donna McCann, vocal solos by Donna Tudor and James Schofield and a dance by Barbara Gloystein, comprised the program.

DR. AND MRS. MORSE LITTLE PARENTS

Dr. and Mrs. Morse Little of Reno are the parents of a new baby boy, born at the Las Vegas Hospital Wednesday evening, January 24. The young man will be christened John Glenn.

FORMER VEGAN PASSES

Al Conger of Oakland, but for many years a resident of Las Vegas, died Wednesday afternoon. He is the son of Dr. and Mrs. E. H. Conger of Caliente.

RETURNS FROM ALHAMBRA

Mrs. Hazel Williams and Mrs. Woody Pierce have returned from Alhambra, where they attended Clark Miller's funeral.

MOVES TO NEW OFFICE

V. Gray Gubler, attorney, has taken over the office and business of the late William Scott and has moved to 204 Beckley building. Gubler has been associated with the firm of Ham & Taylor for about four years. He was admitted to the Nevada bar in February, 1936. He is a graduate of the University of Utah, where he received his LL.B. degree.

SPENDING FEW DAYS IN L. A.

Mrs. Will Beckley and daughter, Mrs. Jack Richardson, are spending a few days in southern California.

LEAVE FOR LOS ANGELES

Mr. and Mrs. Leo A. McNamee left Wednesday evening for Los Angeles for a few days' visit.

FIRE DEPARTMENT REPORTS ON MANY FIRE HAZARDS EXISTING IN VEGAS SCHOOL BUILDINGS

Report of Fire and Life Hazards in New High School Plant

1. Open and Wooden Stairways
Probably the most dangerous feature in the construction of school buildings is the open and wooden stairway. Contrary to public supposition, most deaths in fires are not where people actually burn. Investigation of fires where loss of life has occurred indicated the inhalation of heated and toxic gases was the direct cause of death. The tendency of the gases of combustion to expand and rise vertically under the influence of heat is well known. Open elevator, stair and dumbwaiter shafts facilitate the rapid rise of these gases and quickly become blazing flues. Regardless of slight inconveniences to school routine, all such vertical openings should be enclosed by fire-retardant walls and doors.

A type of construction which has a good deal of merit as a fire retardant is the one where the hallways and stairways are required to be of fireproof materials and enclosed in walls of masonry construction.

2. Storage Under Bleachers in Gymnasium
Openings have been cut in unpierced wooden walls under bleachers to provide storage space for articles of an inflammable nature. The bulk of these bleachers are in the gymnasium, but there is one set in the chemistry room on the top floor. This bleacher is of wooden construction and a door has been cut in one end where an electric motor and electric light has been installed. This space is also used for the storage of lumber, paper boxes, etc.

Method of Correction—Completely fireproof by covering the entire area of the space now being used or to be used in the future for storage, with metal lath and plaster.

3. Janitor Supplies Under Stairs
It is the practice to store janitor supplies under the staircases.

Method of Correction—Completely fireproof entire area used for this purpose.

4. Fire Door on Boiler Room
Door to boiler room is no different than all other doors in building in regard to closing, and is not an approved fire door. Also the boiler room is located in the basement under the administration offices and directly opposite one of the wooden stairways leading to the upper floor. In case of explosion the fire would follow the lines of least resistance which would be this stairway.

Method of Correction—Install proper fire door inside of boiler room, same to be installed on incline track and held open by fuse link.

5. Fire Escapes
At present there are no fire escapes of any description on any building in this plant.

We emphatically recommend the immediate installation of suitable fire escape at each end of the main school building. At present if a fire should start on the lower floor, the three stair wells would go into action at once as flues and cause a trap that would prevent all the children on the upper floors from getting down these wooden stairs. Since these stairs are the only way down it would mean over 200 children would lose their lives, due either to fire or panic before help could reach them.

6. Lack of Fire Drills
There has not been a proper number of fire drills each month in the past and we recommend that a drill be held each and every week during the duration of the regular school term.

7. Bannisters in Front of Doorways

On the top floor there are bannisters in front of two doorways which necessitate turns during exit. There are also two steps down to the floor of the hallway. In case of emergency this condition would cause a jam at the doorway and retard speedy exit.

Method of Correction—Remove bannisters and steps and replace with ramp.

Report of Fire and Life Hazards in Old Grammar School Plant

1. Boiler Room
The boiler room is in a room that has no approved fire resistant walls or ceilings and no approved fire doors. The room is located directly below two 4th grade rooms and these rooms are used by approximately 65 children during school hours. In case of explosion while classes were in session, these children would be killed or injured immediately. Center of upper floor is supported by a wooden post between and in front of fire boxes of each boiler. Boiler room is used as storage room for floor oils and janitor supplies of an inflammable nature. Ventilating duct leading from boiler room to the upper portion of building can only be closed by a wooden door.

Method of Construction—House boilers in building of masonry construction with approved fire doors. All janitor supplies should be stored in fireproof room. Only entrance to boiler room should be from outside.

2. School Library
All shelves in school library and supply room should be of metal and room should be of fire resistant construction with an approved fire door.

3. Steel Ceiling
The entire building has steel ceilings which should be replaced with metal lath and plaster. Building having steel ceilings can burn to the point of falling in before fire is discovered. It is practically impossible for firemen to combat a fire in a steel ceiling.

4. Modern Stairways
Stairway leading from upper to lower floor is of oil soaked wooden construction and is used continually by most of the children during regular school hours. In case of fire these stairs would burn instantly, cutting off one or two avenues of escape from the building.

Method of Correction—Remove present stairs and replace with steel or concrete construction.

5. Storage Under Stairs
Remove all materials of any nature from under stairway and permanently close openings.

6. Oil Soaked Floors
All floors in building are saturated with floor oil.

Method of Correction—Replace all floors or cover with non-combustible material.

7. Movable Blackboards
Most blackboards in class rooms are movable and can be raised to provide cloak rooms for children. Present use, however, is for storage of boxes, papers and other inflammable supplies. All of these spaces provide a flue to the attic of the building.

Method of Correction—Remove all materials from spaces and securely fasten blackboards in the lowered position. Completely seal ceilings of the cloak rooms with fire resistant material.

Report of Fire and Life Hazards in New Grammar School Plant

1. Storage Under Bleachers in Gymnasium
Openings have been cut in unpierced wooden walls to provide storage space for articles of an inflammable nature.

Method of Correction—Cover the entire area of the space now being

(Continued on Page Four)

McCarran Gets Important Post

WASHINGTON, Jan. 26.—Senator Pat McCarran has been named a member of the important senate committee on post offices and post roads, according to an announcement made at the capitol today.

Through his new position, Senator McCarran will have a voice in the disposition of all bills relating to highway matters, including maintenance of highways, federal cooperation with states as regards highways; and all post office bills such as nominations of first, second and third-class postmasters, post office departmental bills, extension of air mail routes, etc.

Besides this new assignment Senator McCarran serves on senate committees on appropriations, judiciary, public lands and surveys, reclamation and irrigation, and District of Columbia.

As a member of important appropriations sub-committees, Senator McCarran has a hand in the money expended on the industries and interests of paramount importance to Nevada.

His sub-committee assignments include agriculture, independent offices, legislative establishment, state, justice, commerce, labor, treasury, post office, and interior, the latter having before it all appropriations pertaining to mining.

Visitors Enjoyed 4-States Meeting

By ROBERT HAYS, Secretary
The best convention ever held! This was the verdict of those who attended the fifth annual gathering at Las Vegas, January 12th, 13th and 14th. (It was really the sixth, because in addition to the annual conventions, there was the first or organization meeting held at Las Vegas at the time the Four States Highway plan was inaugurated.)

Old friendships were renewed. Persons who had never attended Four States gatherings before were present and went out enthused and eager to go to work to make U. S. 93-95 one of the greatest of western arterial highways.

The two next conventions were provided for. There will be a gathering in September at Salmon City in Idaho's unspoiled, primitive area by the side of the "River of No Return." This was arranged so that all of Idaho might attend to better understand its own local road problems of U. S. 93 in that state. Missoula will help to make the Salmon convention the greatest ever. Then the 1941 convention was set for Mexicali, Baja California, Mexico—on the border between California and Lower California—and this was arranged so that the gathering there could give stimulus to the construction work planned in Mexico on the Four States route south of Calexico and leading to the Port of San Felipe on the Gulf of California.

Las Vegas proved itself to be a wonderful host city and still a "frontier town." Those who attended will always be grateful to Mayor Russell, City Manager C. D. Baker, Director General K. O. Knudson, Oliver Goerman, the late committee; the lodge of Elks and a great number of other hospitable Las Vegas citizens who did so much to make the meeting a success and to give the delegates a truly good time. Engineers of the U. S. Bureau of Reclamation must also be thanked for arranging a specially conducted inspection of Boulder dam and the power plants.

George Franklin Now in Reserves
LOS ANGELES, Jan. 24.—George E. Franklin, son of Mrs. Ione Franklin, Las Vegas, Nevada, was honorably discharged from the United States Army on January 12, 1940, while serving with the Air Corps and enlisted on the same date in the Regular Army Reserve, it was announced here today by Colonel Aubrey Lippincott, local Army Recruiting Officer.

Franklin, who recently returned from a tour of foreign service, was accepted in the Reserve in the same branch and with the same grade he held at time of his discharge from the Regular Army, Colonel Lippincott stated.

ENTERTAINERS CONTRACT CLUB
Miss Irene Barsaloux entertained her contract club at the home of Mrs. W. N. Schuyler, 604 South Sixth street, Thursday evening. After several rubbers delicious refreshments were served to the following: Mesdames W. E. Ferron, J. T. Waters, S. J. Lawson, R. R. Russell, C. F. DeArmond, Hale B. Slavin, A. B. Witcher and the hostess, Miss Barsaloux.

ATTEND MEETING AT CARSON
Dr. and Mrs. C. W. Woodbury left Wednesday morning for Carson City to attend a medical meeting. They expect to return the last of the week.

RETURNS FROM TRIP
Mrs. Minnie Singleton of Singleton's Dress Shop has returned from an extended trip to Texas.

Kel Houssels Is Raising Lemons

A fine, large lemon, rather more orange colored than lemons usually are, was sent by Kel Houssels to the meeting of Las Vegas Chamber of Commerce Tuesday.

The lemon was grown on a tree in the yard of the Houssels home and is one of four on the little tree this year, last year there having been three.

Rotarians Hear Of Winter Sports

Andy Rafael, program chairman for the day, offered an interesting program at Thursday's meeting of Las Vegas Rotary club on the subject of winter sports.

The first portion of the program was devoted to a demonstration and discussion of skiing by Bud Doherty, who explained the whys and wherefores of the various items of equipment, and declared that winter sports have already developed into an important asset of the community.

Bob Griffith closed the meeting with a showing of motion picture reels taken in colors which covered many of the delightful features of the "Desert Alps" in winter and scenes of skiers in action in various portions of the mountain area.

Allen Bunker, son of Secretary Bryan Bunker, spoke briefly, asking the friendly cooperation of Rotarians in promoting the concert to be held at the grammar school auditorium January 31, for the purpose of securing suitable uniforms for the high school band. The band, although conceded to be one of the best musical organizations of the kind in the state, has been handicapped by having uniforms which do not compare in attractiveness with those of most other school bands in the state.

Library Receives Rosicrucian Books
Additional volumes treating on the subject of Rosicrucianism have been added to the collection of Rosicrucian philosophy at the local library, Allen Foote, of 531 South Tenth street, local Rosicrucian member, states that he has been informed by the grand secretary of the Rosicrucian order with national headquarters in San Jose, California, that because of the demand for works on this subject, it has been found necessary to donate further copies to the Las Vegas city library. Allen Foote also declares that since the Rosicrucian order, known as AMORC, is not a religious organization, all of its publications are treatises on philosophy, metaphysics, the sciences and arts—the object of the organization being to acquaint the student or member with the nature of existence and to give an understanding of the fundamental laws of life so as to permit him to realize a fuller and more abundant existence.

"The selection of cities for the periodic national Rosicrucian conclaves is determined," further stated Foote, "by the interest shown by the reading public in the organization's publications and monthly periodical, The Rosicrucian Digest, in the public libraries." In addition to holding membership conclaves in such cities, extensive advertising is then conducted by the grand lodge in the local press. The funds that make possible the donation of the books to the public libraries are the result of contributions of local members of the organization.

CLARK MILLER DIES FOLLOWING OPERATION
News of the death of Clark Miller, nephew of the late Senator William A. Clark, has been received. Miller died in a Los Angeles hospital Sunday last, following a surgical operation Thursday.

The funeral was held at Inglewood Cemetery mortuary, where interment was made in the family plot.

Mr. Miller, who was construction engineer on the San Pedro, Los Angeles and Salt Lake railroad during and following its building, had many friends in Las Vegas who regret his untimely death.

VISITS SISTER
Miss Norma Pookock of San Pedro is a house guest at the home of her sister, Mrs. Jack Pembroke, 114 North Seventh street.

ATTEND MEETING AT CARSON
Dr. and Mrs. C. W. Woodbury left Wednesday morning for Carson City to attend a medical meeting. They expect to return the last of the week.

RETURNS FROM TRIP
Mrs. Minnie Singleton of Singleton's Dress Shop has returned from an extended trip to Texas.

Charleston Park Scene of Winter Sports Frolic

Charleston Park Lodge will be the scene of "Winter Sports in the Desert Alps" Sunday, January 28th, from 12:30 to 2:30, according to Miss Florence Lee Jones, committee chairman for the Desert Ski Club, sponsor of the event.

The master of ceremonies will be Richard Ronzone, president of the ski club. He will introduce District Ranger Jack McNutt, who will give a short talk.

A style show of men's and women's winter sports costumes from Ronzone's store will be modeled with Charles S. Doherty, vice president of the club, explaining the various items.

Doherty will give an explanation of different types of skis, poles, bindings, waxes and other equipment and give an indoor exhibition on skis, which will be followed by motion pictures of skiing taken at Mt. Charleston. After the indoor show, Doherty will give a ski lesson on the outside.

Merchandise will be on display from Ronzone's and the Bartlett Brothers stores.

The public is cordially invited and a large crowd is expected to participate in the event.

Needles to Give A Rotary Party

Needles California, Rotary club has arranged to entertain Rotarians from Boulder City, Las Vegas, Kingman, Flagstaff and other cities, in the region, Saturday evening, February 3, and has issued invitations to the various clubs.

The "Tri-State" meeting has been held each year for a number of years, originating more than 10 years ago when Needles, Kingman and Las Vegas were the only Rotary clubs in this region. Meetings are held annually in each of the three cities and have always been most enjoyable.

President Archie Grant appointed Jim Cashman chairman and Otis Smith and Frank Gusewelle as an "On to Needles" committee, to secure a large attendance from this City.

Giving Party to Court House Gang
District Attorney Roland H. Wiley and his assistant, Paul Ralli, are joint hosts this afternoon to the officials and deputies of the court house.

The jollification is being held at the Wiley residence on Fourth street.

PAINFUL ACCIDENT
Mrs. Theresa McGovern, 124 Fifth street, suffered a very painful accident Monday afternoon at her home when she caught her hand in the wringer of her electric washing machine.

The flesh on her hand was badly torn, although no bones were broken. She is resting comfortably at her home and says her hand will soon be as good as new.

OLD TIMERS HOLD MEETING AT CHARLESTON
With the beautiful Desert Alps as a setting, the Old Timers and their wives held a banquet at Mt. Charleston Wednesday, January 24, and a record crowd of 75 attended. President Jack Davis was in charge and entertainment was provided by Jeanne Smith, who gave a dramatic interpretation and played selections on her accordion.

VISIT COAST
Mrs. Adele Martin and daughter are spending a few days in Los Angeles.

ENTERTAINS COMMUNITY CLUB
Mrs. W. E. Ferron entertained the Community club at her home, 404 Fremont street, at luncheon, Tuesday at 1 o'clock. The following guests were present: Mesdames J. T. Waters, W. N. Schuyler, A. E. Cahlan, C. S. Wengert, C. P. Squires, C. C. Boyer, O. W. Yates and A. C. Grant.

RETURNS FROM FASHION SHOW
Mrs. Inez Feerguson of the Ferguson Apparel Shop has returned from the spring fashion shows in San Francisco and Los Angeles.

DINNER DANCE AT 91 CLUB
Mr. and Mrs. Ryland Taylor, Dr. and Mrs. R. R. Myers and Mr. and Mrs. Elmer Mikkelsen are entertaining this evening with a cocktail party at the Taylor home, 1108 South Sixth street, followed by a dinner at the 91 club.
