IN THE EIGHTH JUDICIAL DISTRICT COURT OF THE STATE OF NEVADA, IN AND FOR THE COUNTY OF CLARK

No. 10203 E. BURR FAILING, Plaintiff, vs. HAZEL O. FAILING, Defendant.

SUMMONS The State of Nevada Sends Greetings to Said Defendant: You are hereby summoned to appear within ten days after the service upon you of this summons if served in said County, or within twenty days if served out of said County but within said Judicial District, and in all other cases within thirty days (exclusive of the day of service), and defend the above entitled action.

This action is brought to recover a judgment dissolving the bonds of matrimony existing between you and the plaintiff.

Dated this 23rd day of February, A. D. 1940. (SEAL) LLOYD S. PAYNE, Clerk of the Eighth Judicial District Court of the State of Nevada, in and for Clark County, Nevada.

LEO A. McNAMEE FRANK McNAMEE, Jr. Attorneys for Plaintiff. Pub. Feb. 24, March 2, 9, 16, 1940.

IN THE EIGHTH JUDICIAL DISTRICT COURT OF THE STATE OF NEVADA, IN AND FOR THE COUNTY OF CLARK

No. 10122 BERT EUGENE SHULL, Plaintiff, vs. EMMA SHULL, Defendant.

SUMMONS The State of Nevada Sends Greetings to Said Defendant: You are hereby summoned to appear within ten days after the service upon you of this summons if served in said County, or within twenty days if served out of said County but within said Judicial District, and in all other cases within thirty days (exclusive of the day of service), and defend the above entitled action which is brought to have the Bonds of Matrimony existing between said plaintiff and said defendant dissolved, and for other relief specified in the Complaint on file.

(SEAL) Dated this 3rd day of February, A. D. 1940. LLOYD S. PAYNE, Clerk of the Eighth Judicial District Court of the State of Nevada, in and for Clark County, Nevada.

By Sonya Worthy, Deputy. CHARLES E. STITS, 103 Fremont St., Las Vegas, Nevada. Attorney for Plaintiff. Pub. Feb. 3, 10, 17, 24, Mch. 2, 1940.

NOTICE OF APPLICATION FOR PERMISSION TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Application No. 10466 Notice is hereby given that on the 24th day of January, 1940, in accordance with Section 59, Chapter 59, of the Statutes of 1919, P. J. Goumond of Las Vegas, County of Clark, State of Nevada, made application to the State Engineer of Nevada for permission to appropriate 25 of a second foot of the public waters of the State of Nevada. Diversion is to be made from an Underground source at a point in the NW 1/4, SE 1/4, Sec. 34, T. 20 S., R. 6 E., M.D.B.&M., or at a point from which the S 1/4 corner of said section 34 bears S. 11° 45' W., 2,086 feet. Water will be conveyed to a swimming pool located in the same subdivision as the point of diversion, and there used for swimming and domestic purposes from January 1st to December 31st of each year. Date of first publication, February 3, 1940. Date of last publication, March 2, 1940. Signed: ALFRED MERRITT SMITH, State Engineer. Pub. Feb. 3, 10, 17, 24-March 2.

TRUSTEE SALE NOTICE IS HEREBY GIVEN That I, the duly elected, qualified and acting Trustee and Ex-Officio Trustee in and for the County of Clark, State of Nevada, in pursuance of an order of the Board of County Commissioners entered on the minutes of the Board on the 5th day of February, 1940, will on the 29th day of March, 1940 at 10 o'clock A. M. of said day, at the Treasurer's office in the Court House in Las Vegas, Nevada, sell at public auction to the highest bidder for cash, such right, title and interest as the County of Clark now has in and to all that real property now held by the undersigned in Trust for said County and heretofore owned and assessed to Warren S. Parker and upon which the State and County taxes for various years, amounting to \$76.59, remained unpaid and became delinquent at various times, and for which said taxes, the said property was sold to the Treasurer of said County on the 18th day of July, 1932, all of which is shown on the Tax Sale Notice posted on said property. Said property is situated in Clark County, Nevada, and more particularly described as follows:

- Lots 1, 2, 3, 4, Block 1, Paradise Acres.
Lots 1, 2, 3, 4, Block 2, Paradise Acres.
Lots 1, 2, 3, 4, Block 3, Paradise Acres.
Lots 1, 2, 3, 4, Block 5, Paradise Acres.
Lots 1, 2, 3, 4, Block 6, Paradise Acres.
Lots 1, 2, 3, 4, Block 7, Paradise Acres.
Lots 1, 2, 3, 4, Block 8, Paradise Acres.
W. B. MUNDY, Treasurer and Ex-Officio Trustee in and for the County of Clark, State of Nevada. Pub. Feb. 10, 17, 24, Mar. 2, 1940.

PHOENIX COUPLE MARRY A wedding which drew a number of out of town guests was solemnized at the Apache hotel Saturday evening, when Ralph C. Barton and Mary Volpiano, both of Phoenix, Arizona, were united in marriage. The ceremony was performed by Judge George E. Marshall and was followed by a wedding dinner. Out of town guests were: Mesdames and Messrs Robert Barton of Ely, M. C. Barton of Ogden, Robert H. Elder of Phoenix, R. G. Ottenheimer and C. A. Chapman of Salt Lake City.

Bill Introduced Aiding Miners

RFC loans not in excess of \$5000 to class C mines are provided for in a bill introduced late last month by Congressman James G. Scrugham in the house of representatives.

Purposes for which such loans would be extended from the mines finance fund are to develop raw prospects of probable merit, to unwater old workings to permit operations, to catch up, retimber and sample shafts, drifts and tunnels, to purchase necessary equipment for property development, for repair, improve and construct roads to mines.

"Class C mining loans may be made to facilitate the production of any commercial or strategic or commercial metal or mineral, regardless of its present stage of development, if the Corporation (RFC) determines that profitable production in the future is reasonably probable," reads a provision in the bill. Interest on such loans would be chargeable at 4 per cent per annum. The RFC would take as its sole security a full lien upon all ore or metal payable in royalties of 15 per cent of the smelter returns. —Reese River Reville.

STAINLESS STEEL ON THE HIGHWAY

Stainless steel, the wonder metal which has made its appearance in such widely diversified uses as railroad cars and cutlery, cooking utensils and architecture, is now finding its way on the highways in the form of modern light freight trailers, which are characterized by extremely high efficiency due to the big ration of payload to gross weight.

When metallurgists discovered that steel containing 18 per cent chromium and 8 per cent nickel defied the attacks of corrosion and rust and retained its gleaming richness of polished metal regardless of weather, they gave the world a material of use to many industries. In sheet metal form, stainless steel has been made available for the railroad industry by the development of the Budd "Shotweld" process, which welds this material so that it is even stronger at the weld than in the original section. With this method of welding many of the famous streamline trains of American railways have been built by the Budd company.

Now through an arrangement with the Fruehauf company, a leader in the highway transportation field, stainless steel freight trailers are being produced which will serve the motor transport industry. It will not be long, according to the present outlook, before these polished steel units, which are easy on the highway and easy on the pocketbooks of haulers, will become a familiar sight. Transportation experts hail this development as one of the most important in recent years in the highway transportation industry, which now employs over six and a half million Americans.

INEFFICIENCY NEVER PROSPERS

Frank Parker Stockbridge, the well known author, recently wrote: "I don't hear quite as much talk as we used to about chain stores driving the 'little fellow' out of business."

Probably the reason is that the public is learning that the chains can't drive the "little fellow" out of business when the "little fellow" has initiative, ideas and energy that it takes to succeed in any kind of enterprise. During the last decade, the proportion of business done by chains and independents has held at a remarkably constant level. Many economists are convinced that the chains have reached their apex of growth and, if anything, will do less of the nation's retail trade in the future than they do now. And the "little fellow" is responsible for that. He has met chain competition by offering intelligent counter-competition, and it has worked.

This doesn't mean that little merchants don't fail — and so do inefficient chains, along with a goodly number of big merchants. They fail because they are undercapitalized; because they are inexperienced; because they pursue methods which are obsolete; because they refuse to keep up with the times in advertising, displays, service innovations, etc. These merchants would fail whether chains existed or not. Inefficiency never prospers.

A long list of dispassionate surveys show that competition is one of the smallest causes of retail mortality. There is plenty of business in this country for all kinds of stores, and all kinds of stores are getting the patronage their standards of service deserve. Good service always pays, whether the "little fellow" or the "big fellow" provides it.

THE LOW DOWN FROM HICKORY GROVE

A lot of people keep on saying, the greatest problem of the hour is unemployment. But is was likewise 6 or 7 years ago — and every day since. And every day we get a new way to cure it. And we pour another one-billion in the river.

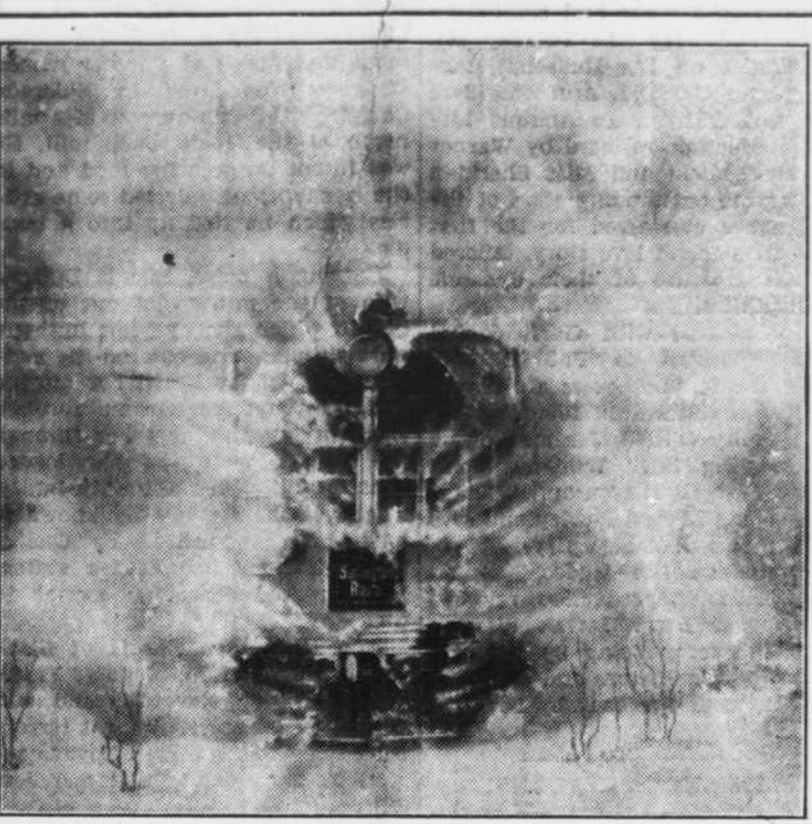

We been acting like we expect to cure a hollow tooth and swollen jaw by rubbing something on the outside. It has been good for the Medicine Men, but not much relief for the patient.

To hire somebody to help you do something, you gotta have more to do than you can do yourself. It don't take any Economist to figure that out. And the only way you can have more to do than you can do yourself, is to have an idea that, by taking a reasonable chance, you can branch out and hire an extra man and thereby make yourself an extra 2 bits.

But if you are scared half-stiff, like everybody is now, you will go into your hole like a woodchuck or ground hog on February second, and wait for the weather to clear up.

Yours for the low down, JO SERRA.

Zephyr Cleaves Snowdrift at 80 M.P.H.

NO hindrance to modern high speed trains are this winter's heavy snows. Here, one of the Budd-built lightweight Burlington "Zephyrs" plows through a drift near Lee, Illinois, at 80 miles an hour. Cleanly and to cleave their way through the air with minimum resistance, stainless steel streamliners are proving ideal for operation under conditions.

CELEBRATES BIRTHDAY Tuesday afternoon, Arnold Blackford celebrated his fifth birthday with a party at the home of his parents, 124 1/2 North Seventh street. Games were enjoyed by the children, the prizes going to Sylvia Haynes and Johnny Pembroke. Delicious refreshments with a beautiful birthday cake were served and the places were marked with names attached to multicolored balloons.

The young guests included: George Ball, Sylvia and Marshall Hayes, Patricia, Roberta, and Maurice Henderson, Pat and Johnny Pembroke, Sally Prowell, Patsy and Dickie Roberts, Ray Blackford and the honor guest, Arnold Blackford.

RETURNS FROM Mrs. C. D. Breeze has returned from southern California where she visited her daughter. Mr. Breeze went down to accompany her home.

PERSONALLY CONDUCTED HOME TOUR

It's quite a ways yet to spring. Most of us will have many idle hours to dissipate while winter keeps us indoors. A few of those hours could be both pleasantly and profitably spent in the interest of fire prevention. And that activity might be the means of assuring that you will continue to have a door to bolt against the cold!

Next time you find the hours dragging, start out on a little tour of your home. Take the family along — it won't be an arduous

trip. Beginning in the attic, where all those ancient magazines you've meant to read and never will, are stored, along with paper cartons, your wife's collection of old clothes, broken furniture which you'll never find time to repair and wouldn't use if you did, and similar odds and ends. Sorting over the collection will probably afford amusement, as you come to that forgotten picture of Aunt Hattie in her wedding dress, and kindred relics. Have your fun — and when it's over call the junkman.

basement, garage. And it's a safe bet you'll come on many a dangerous fire hazard you never knew existed. Fire likes nothing better than accumulations of rags, paper, improperly stored inflammable liquids, amateur electric repair jobs, etc. The upshot will be a more comfortable and roomy home, no less than a safer home. You'll probably find articles which can be used by charities, and thus do a good turn for your less fortunate neighbors. Let's get on that personal fire prevention tour.

In Case You've Wondered? It's a Symbol of Protection and Health . . . This is the symbol of a prescription. It is a variation of the sign of Jupiter and was used by the ancient Chaldeans to please the king of the gods so that the medicine might have favorable results . . . But that is all we have taken from the ancient practice. Today it remains the symbol of prescription medicine, but it is now backed by the scientific knowledge of the marvelous modern ages, and is made important by the accurate compounding of your prescriptions by registered prescriptionists.
