By JEANNE SMITH

WE SHOULD HAVE A GUARANTEE ON TIME

L.V.H.S. has a new system for raising money for various events -and along with it comes numerous perplexing disappointments. Explanation: Since most anything can be obtained from a student if the promise of missing some school is presented, someone had the brilliant idea of selling tickets for assemblies-and it works! But here's the catch: When the ticket is sold, you are told that it is definitely going to be fourth period and, consequently, you do not prepare your lesson for that class. Unless 400 tickets are sold there will be no assembly-and yesterday only _50 were paid for, the result of which will be seen on many a report card!

THE TEACHER'S HADES

Monday is April Fools' Day and probably it will be recognized nowhere more than at Las Vegas high -in fact-it's rather a temptation to miss school that day so yours truly won't be blamed for too much of the chaos which will be reign

AND THE ONE WITH THE SWING BAND WON

Student body president election was to be held March 29, but for some reason was postponed and will be held this week. Last year each candidate had his band out, had signs up and made his campaign speech the day of election, and this year competition is even greater. Elections are being held at this early date because the president and president-elect will go to the student body convention at Reno which is held the same time as forensics. April 11, 12 and 13.

A MARVELOUS OPPORTUNITY

Two graduates and one student of .VHS. have made application to Stokowski's All-American Youth Orchestra which will tour Central South America after it is organ zed. It would be quite a reflecon the muisc department of Alma Mater if even one were accepted, would it not?

D. A. Discusses

(Continued from Page One)

City of Los Angeles and the County of Clark, I cannot be dogmatic in accepting either view on the reservation question. It is my opinion that minds of reasonable men may differ on the question. Therefore unless some provision is put in this the sense of Congress that the taxrespective of the existence of any reservation, the question will eventually have to be decided by the Supreme Court of the United States. Meanwhile, and until this is done, Clark County and the State of Nevada suffers considerably through lack of revenue, but more particularly because of the uncertainty arising at the time of the preparation remains undecided by the Supreme Court of the United States. the Bureau of Power and Light of the City of Los Angeles, the Southern California Edison Company and vation, can, and in all probability come, refuse to pay taxes on such portion of their property within the so-called reservation, and use such cials of this State, including the State Board of Equalization, in demanding an unfairly low assessed valuation

We all know that the matter of public utility and another is a very arise. At the present time the property of a much higher percentage on its actual or book value than exists upon the properties of the Southern Califonria Edison Com-

portion of the property situated in the so-called reservation. In my study of the tax suits between the Act making it very clear that it is ing powers of the State of Nevada may be extended to all property, irtion and adoption of our budget We should not overlook the fact that so long as the reservation quesall other owners of private property situated within the so-called reserwill, during some of the years to threat to harrass the taxing offi-

equalizing assessments between one difficult job. Disputes continuously 00 Southern Nevada Power Company of this City has a valuation upon its Bureau of Power and Light and the

So I say without hesitation and earnestly urge upon all our representatives, both official and unofficial, in Washington, to see that some provision is inserted in this Act making futile any attempt to escape taxation by reason of the reservation question. This is very important and although it has been

brought to my attention that the Bureau of Power and Light has \$3.632.79 agreed to pay its taxes in the event 1.00 of the passage of this Bill, let us agreeing to pay taxes upon an unreasonably low valuation. A good question is, "What will the City do

in the event the State Tax Commission raises their valuation?"

which must be done in order to
