#### O. K. Plumbing and Sheet Metal Works For Plumbing Needs

The O. K. Plumbing and Sheet Metal Works, located at 205 South First street, phone 244, is an establishment that has done its share in making this and surrounding territory more healthy and sanitary.

The plumbing in a properly constructed house is a convenience that has developed to as great a degree as heating. Today, where city water is available, it is piped all over the house, and the charge for such water is very reasonable. Where city water is not available, a properly designed pressure system, using a tank in the basement gives practically all advantages of city water.

Heating and plumbing are exact sciences that require years of study combined with practical experience. The manager of this concern, Mr. S. P. James, is thoroughly conversant with every feature of the business, and is a public-spirited business man, who has always had the interest of the community at heart.

In making this review, we wish to compliment this reliable establishment upon its most enviable standing in the community, and unhesitatingly refer them to our read-
