CLUB NOTES

A. A. U. W.

The American Association of University Women will hold a pot luck dinner at the Methodist Church, Third and Bridger, Las Vegas, Monday evening, October 5 at 7 p. m. Reservations may be made with the president, phone 7, or 448, if unable to contact the committee members, E'Lois Campbell or Mrs. Florence Davis Schroeder. Women interested in joining are particularly invited to come and get acquainted.

MESQUITE CLUB

The opening luncheon of the Mesquite Club will be held at the El Rancho Vegas Friday noon at 1 p. m. October 2. The reservations are in charge of the hospitality committee with Mrs. Roger Foley as chairman. Mrs. Charles Kirste, third vice-president, is membership chairman. More than 100 members and guests are expected. The first regular meeting of the year will be held at the club house, 607 So. Fifth on Friday, October 16.

B. P. W. C.

The Business and Professional Women's Club of Las Vegas held a dinner meeting at the Sal Sage Restaurant Monday evening, entertaining prospective members and guests. Thirty-seven were present for the evening's festivities.

The program was in charge of Mary Jane DeCrane, first vice-president. The aims and objectives of the national federation were explained by Dorothy D. Brimacombe, first vice-president of the state federation; the state group was discussed by Hallie O'Connor, past state president, and member of the Carson City club, and the local club was explained by Mary Jane DeCrane. The meanings of the various symbols which go to make up the B. P. W. C. emblem were explained by Miss Angie Roosa, emblem chairman. As each emblem was displayed a short story was given by Miss Roosa.

Following the program, a contest to name 12 emblems of the service was held with "white elephant" prizes awarded to the highest scores. Top score was tied

for by Mary McClellan and Carole Miller, both guests for the evening.

The next meeting, on Monday, October 12, will be in charge of the public affairs chairman, Dorothy D. Brimacombe. Penny McElroy, managing editor of the Pittman Key will be one of the speakers of the evening. Any non-members interested in attending should contact Mrs. Clarabelle Hanley, president, at phone 1102.

Members and guests attending included Helen Dawdy, Vennis Leonard, Matilda Russell, Irva Faulkner, Juanita Jarrett, Clarabelle Hanley, Florence Knox, Grace R. Bowman, Helen Drago-saver, Mary Jane DeCrane, Olive Burden, Kay Whitaker, Ila Williamson, Mary McClellan, Georgia Exeno, Beloso, Angie Roosa, Eleanor Moore, Nora Ulom, Betty Horton, Mae Free, E'Lois Campbell, Gladys L. Stauffer, Ruth Higbee, Ora Sells, Viola Burns, Hallie O'Connor, Maude Frazier, Ella Bachkora, Jeannetta Ball, Angela DeNeir, Gertrude Moran, Gwendolyn Wooley, Ella E. Caruth, Harriet Farnsworth, Carole Miller, Dorothy D. Brimacombe, and Adelyn Margaret Rotholz.

Health Department Gives Good Advice

The Clark County Health Department under date of September 29, 1942, issued a release warning people of many dangers of home life. The bulletin, giving some excellent suggestions which, if followed would save us much trouble, is as follows:

So many serious accidents happen at home that we must admit it is not quite the place of peace and safety it is so often described.

A great deal is being said and done about accidents in industry; the toll of the railroads has been greatly reduced; fewer automobiles and less speed are a great help; but there is still too much indifference about preventable hazards in the home.

**WATCH YOUR STEP**  
Highly polished floors, poorly lighted steps, soapy bath tubs, and shaky stepladders are often the reason for falls. The dead and injured from these causes alone make a record like a good sized bombardment—all in the "safety"

SAVING SHAVING STEEL FOR VICTORY

CHICAGO, ILLINOIS—Making the "V" for Victory sign stencils, Wilma Poore shows Mark Love how the finest cutlery steel can be conserved for the war effort by re-honing razor blades on a new inexpensive sharpener, called Spee-D-Hone, which is a by-product of a war industry having been made from surplus supplied of an abrasive powder developed for use in grinding precision parts for airplane engines. It has been estimated that if only one-half of American shavers re-honed blades getting thirty shaves per blade, instead of throwing them away after one or two shaves, more than 10,000 tons of cutlery steel could be converted annually for war purposes. This also would help solve the present razor blade shortage.

of our homes!

Small rugs should be fastened down or the "no slip" pads put under them, especially if there are old people in the family. Get a non-skid mat for the bath tub as an extra precaution.

"Paint Them White" is a good rule for steps. If you have a cellar, paint low beams and pipes too, and save a few headaches later.

HANDLE WITH CARE

Scalds and burns rank second among household accidents. It seems that some people will smoke in bed; children will play with matches; mothers will think they can carry baby with one hand and kettle of hot water with the other.

Give a thought to the ashes that might set fire to a stray piece of paper or some other rubbish when nobody is looking. We are taking for granted that you never substitute a basket or cardboard box for the hot ash-can. Fires due to all sorts of other carelessness cause many deaths each year. A fire extinguisher in your home or car may turn out to be the best investment you ever made.

or water heaters sometimes results in imperfect burning of the gas which produces the deadly, colorless, odorless, and tasteless carbon monoxide. It doesn't cost much to have these things examined by your plumber once in a while.

POISON

Poisons are another cause of household accidents. It should not be necessary to warn about rat and mouse poisons, or ammonia, or acids, yet many children will suffer because these things will be left within their reach. Dangerous drugs should always be kept in odd shape bottles or marked so they can be recognized, even in the dark. It is easy to tie something around the neck of a bottle or cut nicks in the cork. Such simple precautions may save a life.

Have a look at the medicine cabinet and see if it is equipped with the essentials for treating

minor accidents. Neglected infections from little cuts and bruises often are more serious than the bigger accidents that bring the doctor with his expert treatment. The first place for First Aid is at home.

Pictures of Memory

By Alice Cary

Among the beautiful pictures  
That hang on Memory's wall  
Is one of a dim old forest,  
That seemeth best of all:  
Not for its gnarled oaks olden,  
Dark with the mistletoe;  
Not for the violets golden  
That sprinkle the vale below;  
Not for the milk-white lilies  
That lean from the fragrant ledge,  
Coquetting all day with sunbeams,  
And stealing their golden edge;  
Not for the vines on the upland,  
Where the bright red berries  
rest,  
Nor the pinks, nor the pale sweet cowslips,  
It seemeth to me the best.

I once had a little brother,  
With eyes that were dark and deep;  
In the lap of that old dim forest  
He lieth in peace asleep;  
Light as the down of the thistle,  
Free as the winds that blow,  
We roved those beautiful summers,  
The summers of long ago;  
But his feet on the hills grew weary,  
And, one of the autumn eves,  
I made for my little brother  
A bed of the yellow leaves.  
Sweetly his pale arms folded  
My neck in a meek embrace,

As the light of immortal beauty  
Silently covered his face;  
And when the arrows of sunset  
Lodged in the treetops bright,  
He fell, in his saintlike beauty,  
Asleep by the gates of light.  
Therefore, of all the pictures  
That hang on Memory's wall,  
The one of the dim old forest  
Seemeth the best of all.

"Unreality" will be the subject of the Lesson-Sermon in all churches of Christ, Scientist, Sunday, October 4, 1942.

The Golden Text is from Galatians 6:8, "He that soweth to his flesh shall of the flesh reap corruption; but he that soweth to the Spirit shall of the Spirit reap life everlasting."  
The Lesson-Sermon includes the Bible passage, "But now thus saith the Lord that created thee,

O Jacob, and he that formed thee,  
O Israel, Fear not; for I have redeemed thee, I have called thee by thy name; thou art mine." (Isa. 43:1).

Also the correlative from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, "We must learn that evil is the awful deception and unreality of existence. Evil is not supreme; good is not helpless; nor are the so-called laws of matter primary, and the law of Spirit secondary." (P. 207).

GRANDMA MADE ALL HER OWN CLOTHES - - - !

A "store bought" dress was a seldom-attained luxury for Gran'ma. Today, thanks to modern scientific production methods, most women buy smart fashions from local shops at prices home sewing could hardly duplicate. GRAN'MA took a day a week out of her life doing the washing, too. Today, home laundering can't come close to the scientific modern laundry in efficiency or actual cleanliness . . . and we have a service to fit every purse and need.
