YIPPEE COWBOYS AND GALS,
And all ye lovers of our wide open spaces who come strollin' into town to have a rootin' tootin' good time. Right now I just nearly jumped out of my skin. The guns started roarin' down Fremont Street and sort of startled me, and for a split second I thought the bad men of a wild and woolly past had risen from their graves and were showing us dudes a thing or two. But folks, it's **HELLORADIN' TIME IN VEGAS!** And things are starting off with a bang. (Judging by the shots, I should say bangs). A group of proud young bucks and their gals, gay in their best western togs, just galloped by my door. What beautiful horses they were riding. Makes me sort of glad I had to work late tonight to get these listings ready for you; otherwise I might have missed these excitin' goins on. I reckon what with western atmosphere, right here in the greatest frontier town in the Golden West, it is appropriate to start off with a real buy in a ranch, close in;
THIS RANCH HOME

With three acres of land, located just about three miles from downtown, has a good well, plenty of shade, and it is on a good year round road. The house has three bedrooms, a nice bathroom, a large living room, spacious dining room and a real country kitchen. There are loads of cupboards and closets. Room for a large family and plenty of space out of doors for children to thrive and grow in. Electrolux refrigerator and good gas range included in the very low price of \$4500.00. \$1000.00 down will handle. A real opportunity to acquire that ranch home and three good acres with plenty of water.

TWO BEDROOM FURNISHED HOME.

A really good deal. A real bargain in a nicely furnished house. Living room, (as cozy and comfy as can be), furnished with a good living room set, attractive desk, chairs, rugs and drapes. The front bedroom has twin beds, vanity dresser and chest of drawers, pretty spreads and draperies. The kitchen is really cute and has a nice chrome and metal breakfast set, electric refrigerator and gas range. The service porch is room size (really a sleeping porch) and has double stationary tubs. There is a shower bath and plenty of closets and cupboards. The lot about 50 x 140 is equipped with water system, and there is a lawn and there are a half dozen nice large trees. The yard is completely encircled with a white picket fence, and there is a side driveway (outside the fence which means safety for the kiddies), and a good garage with a tool shed at the rear. Full price, \$4250.00.

A CUNNING HOUSE I'VE REALLY FOUND

And when you see it you'll be bound to realize its value. It is as cute and homey as can be. All knotty pine living room, dinette and kitchen, and a large roomy bedroom with spacious closet. The shower bath is really spiffy. Black composition tile with chrome border. Nice fixtures. The house is stucco and shaped so differently. It is really attractive and can be made into a very comfortable home. The lot is 50 x 140. Sand lona has been put in and is ready for seeding. This house isn't very old. In fact it is almost new. You must see it to appreciate its value. Owner will sacrifice this place for \$2500.00 with very easy terms.

NORTH LAS VEGAS:

Pre-War 3 Bed Room House on a large corner lot
Have you longed for a large corner lot abundant with fruit trees, grapes, lovely roses, shade trees and shrubbery all fenced in and surrounding a well built substantial spacious home? Well, here it is home seekers. This house is a real home, and WHAT a home for a good big family. Plenty of room for Papa, Mama, and the babies. A large living room with built in features, a real dining room (it is a treat to see one these days), nice sunny kitchen, spacious bathroom and three very good sized bedrooms. One especially good feature is the bedrooms all have cross ventilation, and two of them have outside entrances. If one doesn't have a large family, one could realize an income from renting these rooms. This house has so many lovely windows, and such a lovely garden to look out upon. It really is like living in the country. So quiet and restful, yet the place has such a "lived in" look. One FEELS the love of HOME, somehow. Simple and sort of quaint. Completely modern. There is an outside building with shower, toilet and wash basin, and one half of this little building is a wash room. There are four good bearing peach trees, a number of pomegranate trees, several prune trees, and other varieties. The lot is 133 frontage by 130 feet depth. Most people would term this place a ranch. It is really very choice and has oodles of possibilities. Shown by appointment only. Price \$6000.00.

NORTH LAS VEGAS:

Attractive Cottage Home, with a lovely front lawn, enclosed by a beautiful hedge. Painted white with a blue roof and trim, this cute cottage looks as cool as a cucumber. Consisting of a large living room, dinette and a very, very, large kitchen (like a farm kitchen with its many built in features, a large cabinet with glass doors and shelves), full bath room, good sized bedroom and a concrete basement (room size, which present owner uses for a bedroom and he says it is REALLY WONDERFUL on hot desert nights. There is a drive way and a roomy garage. Owner leaving Nevada and must sell quickly. This house may be had unfurnished at \$4250.00, and furnished, \$5000.00. Terms available.

Here's Another Hampton Built House, Folks.

We advertised one last week and sold it pronto. So our satisfied client sent her neighbor to us, so here is another good opportunity to buy a really well built (pre-war) home, in a nice section, inside the city limits, with all city conveniences, yet far enough out to enjoy suburban life, a lovely view (really delightful view of the gunnery school), and not far from a thriving shopping center and picture show. School bus picks up the kiddies. The living room has attractive built in features, and the bedroom is very nice. The bathroom has a built in cabinet and really nice appointments. The kitchen has a dinette at one end and is bright and sunny, and there is a lot of cupboard space and an extra closet with shelves for preserves and such things. There is a very roomy service porch. The front lawn is in and growing nicely. Well constructed with plenty of windows and good floors. Priced at \$3750.00. \$1550.00 down. Balance \$50.00 monthly plus 6% interest.

Special Bargain in a Business Corner. Main Street.

100 x 140. (100 feet frontage). \$1750.00 cash. Hurry! You can make some real money on this one.

BONANZA ROAD.

Bonanza Road. Beautiful lot. All level. 100 ft. frontage by 378 ft. depth. Plenty of good water. \$2000.00 cash. Beautifully located

WEST CHARLESTON:

Five and a half acres. Approx. 390 ft. frontage by 640 ft. depth. Plenty of water. Shown by appointment. No information over telephone.

We are pleased to announce that we are now down-town agents for Huntridge. We have sold many of these homes, and having bought one of them myself, I am really sold on them. These attractive cottages are widely spaced on large lots, and are of pleasing architectural design. They are planned for comfort and are the last word in efficiency (meaning the simplest effort in housework). Unusual details such as individual air cooling and heating for every room (oil furnace), hardwood floors, (asphalt linoleum on kitchen and bath), sumptuous Hollywood bath tubs (they're really keen), adorable kitchens with even a separate spray for washing vegetables or rinsing dishes, and loads of cupboard and drawer space, plus a very efficient service compartment equipped with stationary tub (and automatic water heater of the very best electric type). A very large attractively shaped living room with wide windows, nice hallway, two good sized bedrooms with ample closet space, a wide car porte (or porch if one wishes), about complete in the picture. These homes have all the finer details one usually expects to find in only far more expensive homes. Picturesquely located, with simply divine views of majestic peaks and our wonderful desert, from most every window, a more ideal home-site would be hard to find. Good clear cold artesian well water, plenty of sunshine, fresh desert air. WHAT a place to build health and happiness. All the advantages of country life, outdoor Western living, right in the city, but a few minutes from downtown Las Vegas. Good schools, bus service now, and in the very near future our own complete shopping center, right at Maryland Parkway at Charleston, and last but not least a truly beautiful theatre. Isn't it simply ideal? Drop into my office at the El Patio hotel, just off Fremont on 2nd, (right across from the Apache Hotel), and I will be most happy to show you pictures of these homes, and explain how easy it is for you to acquire one of these exquisite cottages on terms to suit your own income, with a small down-payment.
