Rev. F. N. Addison
Pastor | |

This week's Prayer: Dear God, help us in our hour of need, help us today to know that your love and understanding will bring all things to us. Help us to understand they neighbor and to help him in his time of trouble. Dear God, help us in every way to be worthy of Your everlasting guiding light.

Beginning with Psalm Fifty-One: Have mercy upon me, O God, according to Thy lovingkindness. According unto the multitude of thy tender mercies blot out my transgressions. Wash me thoroughly from mine iniquity and cleanse me from all my sin. For I acknowledge my transgressions and my sin is ever before me.

Against Thee, Thee only, have I sinned and done this evil in my sight. That Thou mightest be justified when Thou speakest and be clear when Thou judgest. Behold I was shaped in iniquity and in sin did my mother conceive me. Behold Thou dearest truth in the inward parts and in the hidden part Thou shalt make me to know wisdom.

Purge me with hyssom and I shall be clean. Wash me and I shall be whiter than snow. Make me to hear joy and gladness that the bones which Thou hast broken may rejoice. Hide Thy face from my sins and blot out all mine iniquities.

Create in me a clean heart, O God and renew a right spirit within me. Case me not away from Thy presence and take not Thy spirit from me. Restore unto me the joy of Thy salvation and uphold me with Thy free spirit.

Congratulations to Mary and Alonzo McChes, who recently joined hands in holy matrimony. The wedding ceremony was held at Prayer House Church of God in Christ on February 8, 1964. Following a reception given by the bride's brother, Mr. Sammy Mossey, the couple flew to Los Angeles for a brief honeymoon.

All Ministers are invited to submit their favorite prayers and sermons for publication in the Voice. The Voice will feature a weekly sermon and prayer on the Church page.

The Voice wishes to extend an invitation to all Churches in the community to submit news and photographs of special events taking place in their respective churches, which they wish to appear in the VOICE.

"SUGAR HILL"
MILLER & LEXINGTON

PEOPLE, PLACES AND THINGS

Sugar Hill, Bob and Ann Bailey's watering hole at Miller and Lexington, opened on the witching hour 12 midnight last Friday. Sugar Hill is the sharpest package bar, architecturally designed, west of New York. The decor is gray-black with blended rainbow pastels; D.D. Cotton, Billy Herbert and R.J. are the thirst quenchers. Sugar Hill will be bidding for the title "Stallion Corner". It seems that all of Vegas Heights males scrubbed up to help Bob open the joint. The place was rocked by Stardust, Gene Mumford and his Stardusters. Gene has a female vocalist, Ann Young, who is so good, it's had to imagine him keeping her. Teamed with the Bean Brothers, a dance team that's out of site. Half of the town nite-lifers crowded into the Sugar Hill Lounge and rocked the joint until after day break. Ann Bailey was lighted up like a Christmas Tree, presiding over corner table, having a ball signing tabs. It looks like Bob and Ann have a winner. . . . Woodrow Wilson and Ruben Bullocks trimmed all of the fat off them, Hazel, Olive, and Vera with those new slender uniforms, the girls are now wearing. "Autumn Leaves", "Misty", "September Song" and "San Francisco" were favorite tunes the gang swayed to. . . . Friday night, Queen Christine got so carried away, that she gave the customers an extra hour of music. . . . Jimmie Bee rocked all night, then brought the house down with a number for his lovely wife, "I need your Love". . . . Bob's Opening --- and of course Christine's magic -- kept your reporter from making the Jackson Street beat. If you have news of People, Places or Things, drop a note to this column, 812 W. Bonanza. We will print it if it is factual and in good taste.

RALLY PLANNED

(Continued from Page 1)

day, February 27, at 8:00 p.m. at the Elks Lodge on West Bonanza, to firm up the final programming of the March 5 mass meeting. All interested members of the community are requested to be present at this meeting t contribute to the program planning.

TAKE PRIDE IN BEING A NEGRO

A vital changing movement of law enforcement in the American Democracy has come. If the Americans want a democracy that will live forever, "a government of the people, and for the people", as well as a government which will be a society where life, liberty and the pursuit of happiness are the inalienable rights of every man, they must fight to blot out every remnant of race prejudice and race hatred by accepting the saving grace of God as becomes all Christian people. They must enforce equal protection by the law for all American citizens, irrespective of race, color or previous condition of servitude. They must destroy everything that seems likely to be contrary to these ends.

If the American people would but turn the pages of history of this great nation, they would find that they have never faced a more serious problem than the race problem which exists today. But fellow citizens of this community, this problem can never and will never be solved so long as Negroes are looked upon under-dogs.

Because historians have suppressed the truth about the Negroes capabilities of doing great things in contributing to

the progress of civilization, many people doubt the Negro has played an important part in making history of the world. They have mostly concerned themselves with writing about the Negro as only a liability. These so-called writers of history do not tell the readers of their books that the African heritage of the American Negro was an asset to American democracy.

The Negro's devotion to the American flag has never been found lagging. He has done his part in helping to build the American citizenship into an undefeatable democratic government so that it shall forever be the land the brave. Not at any time in the history of the American flag has he insulted the Flag. His devotion to the American Flag has always prevented him from killing or attempting to kill a President of these United States.

Black brave men ventured from Africa to Europe, to America and even to the North Pole. Despite handicaps, these adventurers have proved themselves worthy of exaltation in the history of the world. But history, as prejudiced men have written it, conceals from the general public the black man's identity as

onw of the world's greatest men. These writers refer to the Black man as an American with no racial identity if his exploits are in connection with a noteworthy cause, but loudly proclaim he is a Negro if he is at fault.

Consequently, the general public is ignorant concerning many facts about the noble deeds of the balck race's ancestral greatness, its scientific genius and the heroism of many of the world's most gallant soldiers.

Let us inquire into the African background of the Negro question and see if the answer to our inquiry will reveal whether or not his ancestors have made any creditable contributions to the progress of civilization. Some men claim that Godsanctioned Noah's drunken delirium and decreed that the descendants of Ham should be slaves as a punishment for his actions. But the after-events in the lives of the sons of Ham showed that before becoming slaves to their brethren they became the leaders, and served them in the onward march to the light of civilization. In order to preserve the idea of White Supremacy the so-called writers of European and American history do not tell this in their books.

We learn from the Bible that the sons of Ham went into the great wilderness of what is known today as Africa and founded Ethiopia. This nation once

upon a time became the most enlightened of all nations on earth. The Ethiopians built great cities and gigantic pyramids, invented the arithmetic system of numbers and the alphabet of twenty-six letters, the art of writing and the art of science. They also invented the science of the stars. The Ethiopians were the first to mark them in twelve divisions of thirty days and added five days to the year which gives three hundred and sixty-five days. These sons of Ham invented the secrets of metal working, melting, tempering, forging, refining, alloying, soldering, inlaying and engraving. This was only natural because they invented the art of smelter-iron and with it made various kinds of instruments which have become nothing short of a necessity with mankind.

Editor's Note: This begins a five-part series written with the hope that you find just a few more reasons to stand tall in the eyes of the world as a Negro with pride.
