Citizens-Police Body Considers ID Cards, Sanitation Problems

FURTHER DISCUSSION on the subject of attracting more patronage to West Las Vegas business houses is on the agenda of the next meeting of the Clark County Citizens Council, scheduled for Kit Carson School on May 13 at 7:45 p.m.

Suggestions for promoting better business in the community were mulled at the last two meetings of the Council. Also discussed was the possibility of requiring identity cards with birth dates to prevent the serving of juveniles in bars and gaming establishments and a drive to up-grade sanitary conditions in places serving food and other refreshments.

At the most recent meeting last week, Lt. Richard Dunn of the Las Vegas Police Dept. reported on a special meeting between Council members and businessmen held on April 24 in regard to the above-mentioned subjects.

Maj. R. H. Bucknell Jr. (U.S. Army Intelligence, ret.), director of Clark County Civil Defense, addressed the Council on the functions of his office at last week's meeting, with particular emphasis on the anti-nuclear fallout program.

Earl McDonald, local electrician, and Ernest E. Winn III, an employee of the Union Pacific depot here, have been elected vice-chairman and secretary, respectively, of the Citizens Council to serve under Chairman Herman Moody. All West Las Vegas residents interested in community improvement and better citizen-police relations are invited to attend the bi-monthly meetings of the Council.

PRE-SCHOOL PROJECT SEEKS FEDERAL FUNDS

THREE NEVADA COMMUNITIES have applied for grants for "Project Head-Start", a nationwide pre-school program which is part of the War-on-Poverty. Federal funds have been requested for one project in Las Vegas and Carson City and two in Reno.

Decisions on the applications will be made by the Office of Economic Opportunity in mid-May according to Sens. Cannon and Bible.

Project Head-Start will begin this summer in more than 300 communities. It is designed to assist four and five-year-olds in "poverty pockets" to overcome educational deficiencies and improve their chances for success in the classroom.

The projects are to be conducted over an eight-week period with the Office of Economic Opportunity paying 90 per cent of the cost. The local community will furnish the remainder in cash or services, including classrooms, teaching aids and utilities.
