TEACHERS FLUNK AUNT JEMIMA

CHICAGO--(NPI)--"Aunt Jemima" has been fired, thanks to the efforts of the American Federation of Teachers. The teachers, meeting at the Edgewater Beach hotel, were shocked when they were greeted at a pancake restaurant in the hotel by a hostess dressed in Aunt Jemima garb.

The teachers threatened to picket the shop unless it discarded its Aunt Jemima costume and made firm commitments to allow workers to organize. The pancake firm agreed to these conditions.

Now Mrs. Elizabeth Brown, who designed her former "Aunt Jemima" outfit, must wear her own clothing on the job. Mrs. Brown who is "black and proud of it," wasn't too happy about the firing of "Aunt Jemima."

"Aunt Jemima is nothing to be ashamed of. After all, we all have out backgrounds. Now I have the added expense of cleaning my own dresses."

The teachers federation, however, was more concerned about the "degrading" impact the "Negro mammy symbol" on pancake-mix boxes has on Negroes. In a resolution, AFT's civil rights committee urged the Quaker Oats company to discard the Aunt Jemima symbol or face a possible union boycott of its pancake products.

Richard Weaver, restaurant manager, called the incident "ridiculous." But it was not ridiculous to many Negroes, who in colloquial speech, have identified "Aunt Jemima" as the female equivalent of "Uncle Tom."

HUGGING & KISSING BANNED

BANGKOK--(NPI) - A crackdown on kissing in broad daylight in public places has been decreed by the police in an effort to silence complaints about the corruption of morals of Thai girls. The corruption is said to be fomented by foreign soldiers who go a bit farther than using the wai--folding the hand palms together and bowing -- traditional Thai greeting, and employ hugs and kisses.

HUMAN MOLES

MONTREAL--(NPI)- A veritable underground city is in operation in the downtown portion of Montreal, where people can spend their entire lives without ever seeing the surface. A system of underground plazas, or promenades, 4,500 feet below the ground, has shops, cafes, movies, living quarters -- everything that the surface dweller finds necessary. By next spring, 9,000 more feet of the network is expected to be in operation.
