

# We've Been WONDERING

WHY that certain rookie politician doesn't get the message--his most important task now is to stir up interest, stress his name and personality, avoid controversy, and leave the major issue to the 'pros'.

? ? ? ? ?

WHY many persons (despite the fact they excel in several fields) are oft-times labeled fools, boobs and dimwits by some neophyte who confronts them with a problem or situation of which they are totally unfamiliar, and very sensibly, do not attempt to offer a glib answer of resolution of that particular posed problem or situation. ('Tis a wise man who knows he don't know everything, "Bub").

? ? ? ? ?

WHY in these times of tension, mounting conflict and turmoil between the races, some "greys" are still so obtuse (even think it's cute) that they address business acquaintances of color as 'George' and 'Boy'.

? ? ? ? ?

WHY Hoss Westwright invited us to his current Stripville's 'gig' and when we made the scene, he had the nerve to ask his boss if it was alright to serve the "beige" ones. Wow!

? ? ? ? ?

WHY the sequences of 21-22-31-25-35-34-10-20, and 51-61-71-72-44-45-46-56, are supposed to be lucky for those born in June, July and August.

? ? ? ? ?

WHY some ladies of the evening, in a great many instances, portray better manners and good grace than many of our "Jenny-come-lately" so-called professional lasses.

? ? ? ? ?

WHY 99 & 44/100 of all the two-story apartment dwellings in Bronzeville have no fire exits.

? ? ? ? ?

WHY someone doesn't pull the coat of Mr. Know-All-The-Answers as to just who the "square" really is--Our podner, who is buying a modest, but comfortable, home for his family, and is current with his obligations OR El-Slicko who supports a "Hog" and lives in a place so small that every time the door is opened, the furniture has to be moved.

? ? ? ? ?

WHY some of the best false friends of a prominent up-Mercury-way employee don't have a tete-a-tete with him and try to work things out before rushing head-long into an effort to petition him among the unemployed.

? ? ? ? ?

WHY that harridan who, for so long, ruled her household and husband with tyrannical peevishness and selfishness can't dig why the timid one split the scene and "of all things" with a young filly, yet. (If we ever see him again, we're going to ask him why--oke?)

# The Scene and The Seen

DARK HORSE in the Democratic Derby for Lt. Governor laurels is Bill Galt, Sparks City Councilman, or so is the prognostication of the VOICE political analyst... Conducting a highly personalized low-budget campaign, Galt is shown here appearing before members of the Westside Voters League Monday where, with charming humour and great aplomb he followed a "tough act"--Governor Grant Sawyer who made and left the scene with the heartwarming tribute of a standing ovation.

LIKE THIS? or LIKE THAT? Either way on pretty Marie Donaldson of Los Angeles, it's a "good scene", opines the VOICE'S 'Girl Expert' (By no means to be confused with our political analyst).

AND WILL THERE BE ANYTHING ELSE? --is the obvious question of Dorothy Gordon, Cashier-Checker at Johnny's Food Basket on Miller Rd....An inside tip for VOICE readers from our Shopping Counselor--The best salt pork in town can be obtained at Johnny's Food Basket... You know about "a strip of lean--a strip of fat"?

A BAD SCENE here as a friend indicates in pointing out evidence of vandalism at Red Williams Miller Rd. Cleaners and Laundry... Could be that the property tax scene could be a much bitter blow than the recent vandalism if Dutton don't get the Button, Tuesday.
