Political Adv. Paid By The "Fike For Lt. Governor Committee", Robert O'Brien, Chairman

SENATOR WILSON McGOWAN FOR STATE CONTROLLER

"The growth of Nevada has emphasized the need for sound fiscal judgment by the State Controller. I feel that the experience that I have gathered over the past ten years in the Senate can be used best in this office. Having served as chairman of the Senate Committee on Finance as well as a Senate member of the Nevada Legislative Commission, I have become aware of the drastic need for increased attention to pre-audit control of the expenditure of state money in the Controller's office.

Of equal importance, the Controller serves as a member of the Board of Directors of the Department of Highways, which controls the state's largest department. Also, he is a member of the State Board of Finance.

These administrative responsibilities directly affect the value Nevadans receive for their tax dollars."
