THE NEGRO IS NOT A MINORITY

By JOE BROWN
NEGRO PRESS INTERNATIONAL

PEOPLE ARE basically selfish and suffer from bad memory--especially when the memories are bad. The Italians, the Irish, the German, the Greeks, the Jews, and the Swedes should never be bigots....They have all gone through just exactly what the Negro is going through in the ghettos today!

American history books written since 1950 are not fooling anybody. A few of the books written in 1900, and even those about 1900, will show what a great bunch of bad memories we have in America, and the kind of Christian brothers that we had in those days.

Just as surely as historians have omitted Al Capone, John Dillinger, they have also omitted a few of the positive proofs of a constant and perpetual stain of inherent American bigotry.... Read a few Teddy Roosevelt speeches, maybe some of our sons and daughters can change tomorrow... And if we leave them alone perhaps they could work out a greater nation than we ever dreamed possible.

A GREAT question to ask one's self is: What does an Italian have in common with a Jew? Swede with a German, Greek with an Irishman? ...The answer is nothing....No more than either have in common with the Negro, yet the Negro is supposed to be so different. He is supposed to be so conditioned that a pin won't make him jump. In a Pig's eye!

He loves his family, he is greedy, he is prejudiced, he is selfish.

There are close to 24-million Negroes in America today. No other ethnic group can make that statement. They don't have to. If they are not Black, they can be counted as White, they can be Brown, Yellow, Red or anything... Why?

They are needed, that's why... to balance the books for a white majority... Indians from India turn white as soon as they jump off the boat, and they are from Asia... Egyptians are turned white too, and they are from Africa.

RIGHT NOW in Viet Nam, there are clubs in the city where Negro troops are not welcomed,

though whites frequent them... Yet people wonder what's wrong with Stokeley Carmichael....

The black man can stand up and defend this young man just as surely as whites can stand up and defend white youths running from the draft in Canada, and the ones left here yelling "BETTER RED THAN DEAD."

During World War II, American white troops told the German people that Negro troops had tails, were monkeys.... Our armies were even segregated up until the Korean War when America found out that the Chinese were brain-washing the white troops.... And having little or no luck with the black troops.... Those few that defected were more the "victim of high speed conning than brain washing."

THE AMERICAN Negro is the only majority race on this continent, or even in this hemisphere. Latin America, in some countries have an overwhelming majority--take Haiti. Brazil claims to have realized this little inconsistency over 20 years ago, and proceeded to solve the problem... the inevitable one... numbers and age groups.

The average American age of the blacks are 23, the average of the whites 32.... This age difference is surely the main reason why so many Negroes are in Viet Nam. There are more available.

Russia was considered America's main enemy, China, a Russian lackey. Now, in just two short years since China proved that she is no one's lackey, Russia is not so bad after all. Maybe this is because Russia is white and China is colored.... From any standpoint nothing else makes sense.

THE TRUTH is, China has no navy, and no air Force, most of her army is in China. She poses absolutely no overt threat to American military power, yet we are being conditioned to believe that she is worse somehow than Russia.

Something else that ought to give us as Americans some great concern... I am told that

the foreign service of this nation is dominated by southern Whites and if this accounts for some of our alliances, God help US.... I simply do not believe that these American people are capable of giving the true example of America... The roots are not even there....

Power is equality. Russia and America are equal, England and America are not.

And if the sons of Africa had not been made into physical mules, they would not need an affirmation of their place in this land of white freedom. But the child does not come of age until he goes out and wins his own place in his own way.

NOW A NATION of 160 million Caucasians, most who have learned the catechism of power from the crib, because their whole history has been one of power, suddenly wants the black to explain what he means by power.

Teddy Roosevelt knew what power was. And he taught half a continent the lesson. The American Indian disappeared from the face of the earth from the onslaught of white power. And the Dominican Republic has a textbook on American power. But then free men are capable of power. Black men are not free as normal free men.

We can't hang the entire rap on the White man for the Negroes' plight, because there are too many faults with the Black generation today. And they give every indication that the Negroes are willing to still be a slave of some kind.... The open and frequent practice of "willing self-extinction" is the first admission of inferiority. The danger symptom is a greater concern for changing and joining as compared to staying on safe ground and building.

A NEGRO who has the power to be a greater nation than Canada on wealth and manpower, ought have a greater portion of the land in which he lives.... The rules are easy.
