

We've Been WONDERING

WHY that beige-hued, no-soul sister adopts such an asinine attitude toward those who seek help through the agency of which she is head-knocker? Could it be that she, like so many we have met, has no respect, compassion, or courtesy for anyone who is not on what she blindly considers her intellectual and social level.

? ? ? ? ?

WHY those two daffodils who claim sisterhood and hold hands, make goo-goo eyes at each other, and dance cheek to cheek, don't let us in on who is who and doing what with which to whom? Is it that they would rather switch than fight.

? ? ? ? ?

WHY since there are certain drugs (all vegetable products) known to man so far back into history there is justification for believing they were familiar to stone-age hipsters, so many "experts" on the subject of drugs (especially among social workers and educators) are disposed to expound on the matter without ever having done one iota of research whatsoever? Suggestion--Aforementioned should take a little time out and really get in on the happenings--Like Maurer and Vogel's "Narcotics and Narcotic Addiction" should head 'must' reading list.

? ? ? ? ?

WHY some Johnny & Jenny come-latelys to Show Biz who come on PRIMA DONNA style after a few semi-good gigs, don't check the off-stage manners and personalities of solid, up-tight show folks such as the Checkmates, ERNIE ANDREWS, and RED FOX? Friends they knew in the lean, struggling days are the same buddies in their present successful era.

? ? ? ? ?

WHY after making "turning out" his love-struck filly his chosen full-time vocation at which he demonstrated great proficiency, the bragadocious NIT-WIT is currently a prime candidate for Sparks? Could the reason be that the track is too fast for a slow horse such as he.

? ? ? ? ?

WHY the sequences of 12-23-34-35-36-37-39-41, and 17-27-37-57-67-76-77-80, are supposed to be lucky for persons born in August, September and October.

? ? ? ? ?

WHY that certain guest who carefully selected the hog maws to peck on while ignoring the chitterlings in the same pot, didn't ask the learned host what part of the hog the maw came from?--Probably knew all along, and was just making with the Sidy Ditty bag.

? ? ? ? ?

WHY the young friend of the family, who escorted friend's spouse on an evening out on the town that boomeranged when proximity and "what comes naturally" threw a beautiful friendship for a loss, continues to suffer such an aftermath of conscience pangs and sleepless nights? Really, sport, pull yourself together and file the scene in the memory bag--It could be you did your friend a service by helping with much needed and over-due homework.

? ? ? ? ?

WHY some doting parents, godparents, other relatives and family friends permit their love for the small fry to blind them to the dangers of allowing the little ones to stand up on car seats (with no protection at all) while pushing their gas buggies along at a fast clip? Note--a sudden stop could result in a long-remembered sorrow.

? ? ? ? ?

WHY many business enterprises, cooperation and, especially, TRADE UNIONS, that have conspicuously displayed ANTI-DISCRIMINATION signs and posters for the past several years, don't also post the definition of HYPOCRISY?--Like pretending to be what one is not especially, the assumption of an appearance of virtue which ONE DOES NOT POSSESS?

Coca-Cola Sponsors Cosby

The Coca-Cola Company and Bill Cosby's Campbell-Silver-Cosby Corp. have announced the conclusion of negotiations for Cosby to star in "The Bill Cosby Radio Program For Coca-Cola," a show created by the actor-comic himself.

The show will be a five-minute, five-times-a-week program syndicated throughout the country by Coke, which will slot it on "top 40" stations starting January 15. Thus far, 570 markets have purchased the show.

THE CONTRACT calls for Cosby to tape 350 shows for airing over the coming 18 months. Over one million dollars will be paid by Coke for time and talent and this price tag is purported to be the largest ever paid for this type of programming.

Cosby will bring a complete array of new material and character development to the show. There will be no involvement with his "I Spy" character, nor will he use previously recorded or night club material.

Each show will be centered around one major comedy feature. Regular features will include "Animal Interviews," "Oh Wow" and "Spooky Stories." Cosby will also do a segment called "The Brown Hornet," using his aide, LeRoy, and the White Beauty car.
