**Talk About Campaign Talk**

MILWAUKEE - (NPI)--The former leader of "white power" who marched into Negro neighborhoods has repented of his ways and decided to become a fair-housing advocate instead. William Flessas, who used to head the "White Power Rangers," said he would run for the Common Council on an open-occupancy platform. "Human beings, no matter what their color, have a right to live wherever they want," he said.

**OUT-OF-THIS-WORLD WEAPONS FOR POLICE**

WASHINGTON - (NPI)--How do you stop a riot, without merely producing a bigger one? The Institute for Defense Analyses has come up with some out-of-this-world weapons police can use to slow down outbreaks, while not harming the rioters or setting them off on a new rampage.

The institute suggested use of these weapons to the President's Commission on Law Enforcement and Administration of Justice:

--Itching powder, during sit-in demonstrations.

--Polastic confetti, spread on the ground to make walking difficult.

--Sticky globs to glue rioters together.

--A net dropped on rioters from a helicopter.

--A super water pistol with a 35-foot range and squirting a pepper-based solution.

--Tranquilizing darts, like the ones used on wild animals.

The policeman's old-fashioned night stick also came under scrutiny. A detailed study should be made of night stick use and training programs should be started, according to the institute.
