

# We've Been WONDERING

WHY the LVPD don't utilize the talents of Detective Wilbur Jackson to brighten the image of the local fuzz as viewed by Soul Towners? Jackson knows both sides of the problem and has the right type of personality to put the message across. He has developed into a boss public speaker, and has both intelligence and full knowledge of the problems. The local gendarmes could not find a fellow officer better equipped to do the job.

? ? ? ? ?

WHY that favorite son who has come of age and has prospects for a bright career, don't try standing on his own feet? His parents ain't supposed to keep picking up his tabs like food, clothing, medical care, and repairs on his shorts. If favorite son don't start paddling his own canoe, he is going to get left up that creek while the career goes to the dogs.

? ? ? ? ?

WHY that Strip joint which continues out-moded discrimination against Bro, ain't been busted for being the teenage cesspool of the town. Maybe the news ain't got to Prying Paul yet.

? ? ? ? ?

WHY Operation Independence would attempt to scuttle George Gant who knows more about the Poverty Program than all the others put together. It looks like we got a bunch of Quislings in Soulville who are trying to scuttle every worthwhile operation that is doing something for our cause. There are reliable reports that two of the ring leaders of the Scuttle-George movement, are signers of the petition to put Wallace on the Nevada ballot. And both of them are Soul, yet.

? ? ? ? ?

WHY the sequences of 2-3-4-7-17-22-23-24-27-29, and 37-42-43-44-47-49-57-59-19-39, don't never win a damn thing for people born in September.

? ? ? ? ?

WHY we ain't formed a vigilante shock-troop posse to shock the traitors into line? Soulville has got too many fighters who ain't doing nothing but fighting among themselves. Bro is going to get cleaned out but good, if he don't clean out the rats from his own house PDQ.

? ? ? ? ?

WHY that bachelor Poverty worker would buy a TV for that filly when he ain't even allowed to visit her pad. The lame brain ain't even got a TV of his own.

? ? ? ? ?

WHY those two MDTA program classes that are supposed to be made up of 65% of persons from underprivileged ethnic groups, only have two Afro-Americans, one Spanish-American, one Real American, and 37 White Americans? Poor Henry never laid claim to being no Einstein, but he ain't the only one that ain't a math brain. Ask The Greek if something ain't wrong with them figures, and what the odds are that something ain't kosher with MDTA.

? ? ? ? ?

WHY that clique that always tries to run the show thinks that everybody is stupid enough to never wake up to how phoney they are. They make a Seven Dollar bill look like real. They are some kind of counterfeit, and are soon going to get caught with their hands in the cookie jar.

## Attempt To Dissuade King From April Project

ATLANTA - (NPI)--The man who coordinated the 1963 March on Washington doesn't think much of demonstrations in the nation's capital under Dr. Martin Luther King's leadership this spring.

Bayard Rustin said he had tried unsuccessfully to persuade Dr. King to call off plans for the "camp-in." Because of the nation's mood, "I seriously question the efficacy of Dr. King's plans for the April project," he said.
