

We've Been WONDERING

WHY in that North Town Palace where the "SOUL" has invaded enmasse since the closing of the "TT and L" clubs, the management is so appreciative of the new business that they permit the KENO writers and the DEALERS to address BRO and SIS as FELLER and HONEY CHILD instead of BOY and GAL, don't supply separate drinking glasses so there won't be any doubt of their sincerity.

WHY a certain BRO'S new limelight bag that has given him delusions of grandeur and swelled his noggin with gas, doesn't get the message--like, overnite big heads have a very high mortality rate and any performer, musician or writer is only as good as his last performance or script.

WHY those that were caught in the middle of the stupid scene (Saturday last) in B.B.'s BISTRO played by C.W. (Clink Wig) and were mildly shook, don't console themselves with the fact that everything changes but a fool. It has been suspicioned but not quite proven as yet, that long usage of lye (process to you) seeps to the brain and mixed with ignorant oil is a one-way trip to IGNORANTSVILLE.

WHY certain ladies who are long sufferers from the disease of the times, LIKE--TOO much FOOD and DRINK and complain of not being able to lose weight, don't check with our long-time podner "VERA" (Mrs. Will Power herself), the way she is twitching and switching with the action in the right places, has the boys taking notice and the fraills green with envy.

WHY those anti-Negro, anti-Mexican, anti-Jewish candidates don't stop trying to snow job the good thinking folks of our state with their bigoted appeals in the "Law and order bag" when there has not been ONE major race incident here, ever. Or could it be their definition of Law and Order is a racist code for keeping Black folks in their place.

WHY the sequences of 2-6-8-10-13-14-29-30, and 41-57-59-60-63-64-73-74, are supposed to be lucky for persons born in August, September and October.

WHY Miss Stupido, who was cut loose from the Welfare rolls and is now engaged in a watered-down version of the ol' badger game as a hustle, doesn't pick her marks more carefully? The last victim is stone fish and the only reason 'He-She' hasn't gone the Christine J. route is clearance to leave the country from Uncle S. Wonder who's kissing her now....

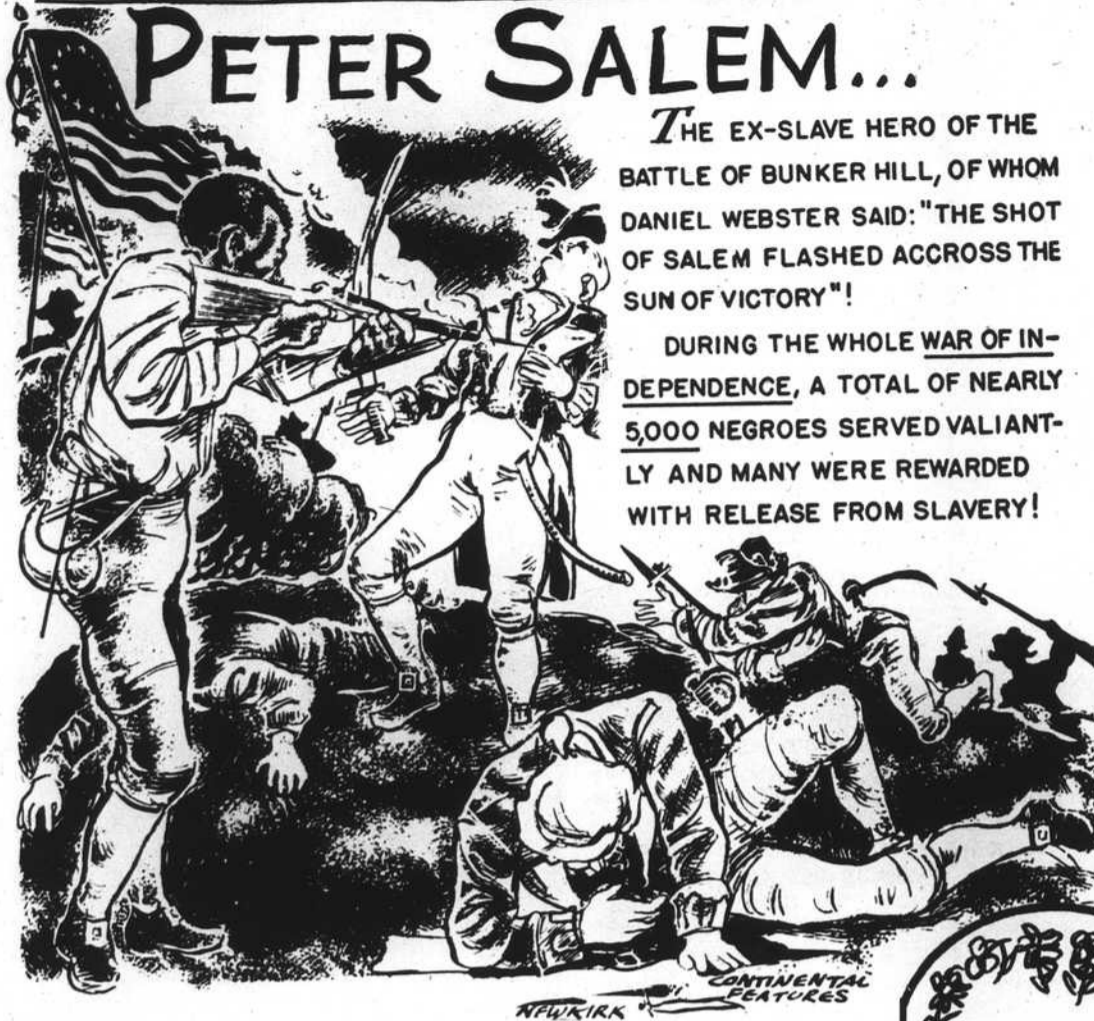

WHY those fine, outstanding, well educated, just-turned-to-adulthood offsprings of that hard-working illiterate God-fearing couple don't ship their parents off to Siberia or turn them out to pasture as a token of appreciation for their sacrificing and struggle that prepared them for well-paying jobs and first degree snobs.

WHY in 1868, the big cry was "Keep the Spooks from the polls and we'll return to white home rule!" And 100 years later, 1968, the big bleat is "Law and Order."

WHY is there any difference today than there was in Georgia, 1868, when violence reached a pinnacle during the national election and a trail of blood and death was spread across the state terrorizing the Black voters trying to exercise their rights of citizenship.

WHY big time photogs think their pink-toe kittens rate so big that Polaroid can't take their likeness to grace their walls--yet "Black is Right."
