

# A GUY NAMED GUS & HIS FRIENDS

White-jacketed Gus Gluffre and a bunch of his friends. We have no idea when or where this picture was taken, nor do we know why. We do know a bunch of Gus' pals decided to give him and his wife, Liz, an appreciation Dinner, June 12th Sahara Space Center. In our way, we are asking all who will to grab a ducat and join in the celebration. From what we have heard, Gus is really a pretty-food Joe.

## WOMEN HOLD SEMINAR JUNE 13-14, U of NEVADA

General sessions discussing how a woman may develop her effectiveness as a housewife-mother, productive wage earner, and active citizen, through new knowledge and understanding about herself, will be a part of the Workshop Conference to be held June 13-14 at the University of Nevada. The conclave is being sponsored by the Governor's Committee on the Status of Women.

The conference is listed as being available to men and women with earlier professional training or work experience, interested in returning to the labor market; housewives without experience preparing to enter the labor market; students planning to enter the profession or business field; women who are planning to become involved in community service; and for teachers and school counselors.

Also welcome are: representatives from business industry and government; dignitaries of local, state and national levels; representatives from private, social and health agencies; educators in universities and colleges.

While the seminar is geared to women, men are invited to attend. Single sessions may be attended or lodging, food, and materials may be obtained. Fees are from \$3.00 to \$15.00.

Your professional beautician knows the answer...

### Why does some hair break off when combing?

Your hair is precious and delicate... and none of us like to see it break off for any reason. Scientists tell us that excessive use of hot combs and over-processing of hair with chemicals often are major causes of brittleness resulting in hair breakage. But hair that is naturally curly and tangles easily frequently breaks off in everyday combing. Notice how irritated your scalp becomes when you comb in contrast to the way your beautician does?

Your professional beautician knows that curly hair mats and tangles so easily that it should be softened before combing. Otherwise, unnecessary irritation to the scalp and damage to the shaft and ends of the hair occurs. To achieve this needed softening and a temporary relaxing effect that prevents breakage on all human hair (including wigs), most beauticians rely on Clairol® Hair-So-New® spray-on creme rinse. For combing ease and for beautifying your hair in many other ways, trained beauticians stock a complete family of fine Clairol products for your specific needs.

Visit your expert hairdresser, who cares about your hair care and your comfort. Whatever the nature of your hair problems, only your professional beautician knows the answer for sure.
