

### Cool, Comfortable & Stylish

With the summer drawing to its brilliant climax, for another year, one of the smartest new pieces of wearing apparel is The Dashiki. They are cool, comfortable and are used for a variety of occasions. This pert miss uses it to cover her beach garb, and the length is just right to be fashionable.

### Named To 'AG' Hall Of Fame

Dr. George Washington Carver, the scientist, noted for his work in soil science, chemistry, botany and conservation, has been named to the Agricultural Hall of Fame with George Washington, Thomas Jefferson, Cyrus McCormick and Justin Smith Morrill. They are the first to be honored by the national agricultural memorial at Bonner Springs, Kan., near Kansas City.

Dr. Carver, who was head of the Agriculture Department at Tuskegee Institute, Ala., for more than 40 years developed new products that could be grown locally, working especially with peanuts and sweet potatoes. A plaque honoring Dr. Carver was presented

to the U.S. Department of Agriculture in 1965 by the Carver Commemoration Committee.

While the five men are noted for other contributions to American history, their selection by the Hall of Fame's board of directors was for their achievements in agriculture alone. For example, George Washington, who had 12,000 acres of land under his control at the age of 40, successfully demonstrated that farmers could be self-sufficient and independent of foreign markets. Jefferson was noted for his invention of the seed drill, a hemp rake and a threshing machine. McCormick helped settle the west with his invention of the plow and reaper.

### Publishing Notice

Churches, organizations, groups, clubs and others submitting items to the Las Vegas Voice are asked hereafter to get their articles in immediately following the event involved.

Our staff finds it necessary to issue this request in order to give the fullest attention to the largest number of contributors.

We are certain you will give your fullest co-operation to this request.
