

Inside Straight

By THE GHOST

The double talk of several officials involved in talks with committees this week strikes an old tune.

Always trying to side step issues, in one meeting we had Boss Lynch saying, we need everything documented, giving time, place, and names and he will take whatever action he, Boss Lynch deems necessary.

What he apparently means is that all of our students must have a camera, a tape recorder and several witnesses before he will take any action at all. How else could we document these incidents? Mayor Echols was hopping on and off the fence also.

Sounds real stupid to use this ruse to avoid issues. And it is. But then on the other side of town stepper Dr. Guinn asks for the same thing. If it is not documented, then it is heresy.

What proof does he ask for? Must we get a sworn statement from Olsen that he is in fact a racist?

We do know for a fact that he is a member of a religious faction that teaches racism. While they do admit a few token blacks to their group the blacks are not qualified to become leaders. It is a real fact (documented) that he gave his word to students that they were to be taken home, but in fact did have them taken to juvenile facilities placing them under citizens arrest by remote control. There may be a legal question involved. Can a citizen make a legal citizens arrest of someone as far away from the school as the students were?

Not being a judge or attorney, not even the ghost of one, this answer I don't know. But, it is a question that might be answered by the brains.

Still another group of public officials have started a move to put themselves above the people by saying we dare not talk about their throne room, without getting consent to speak. The next thing we know, (is that if one of this group has their way) all citizens of Clark County must wear formal attire, kneel and kiss the floor before being allowed to even enter the throne room. This group is commonly known as the Clark County Scholl District Trustees.

How can we expect to close the communication gap, be heard with respect and receive fair and just consideration of our pleas from the school district administrators and trustees?

Noting the agenda of the October 8 meeting item 9 on student expulsions appears to be in violation of the State Law. The only matter that the public is to be excluded from are personnel sessions. And this subject matter is not a personnel matter. Do you dig it brothers?
