social security news

Of some 260,000 adults who have been disabled since childhood and collect social security disability benefits, more than 65 percent suffer mental disorders.

The average monthly social security payment to a retired worker is now \$116—more than five times the amount paid in 1940 when the payments began.

Have a question about social security and its retirement, survivors, disability or Medicare benefits? See your telephone directory for the phone number and address of the nearest social security office.
