

CHURCH NEWS

By Lethaniel Dilligard

THOUGHT FOR TODAY

Christ has no hands but our hands, to do his work today; He has no feet but our feet to lead men in his way.

He has no tongue but our tongues to tell men how he died.

He has no help but our help to bring them to his side.

We are the only Bible. The careless world will read; we are the sinner's gospel, we are the scuffer's creed; we are the Lord's lost message.

What if the line is crooked?

What if the type is blurred?

What if our hands are busy

With other, work than his?

What if our feet are walking

Where sin's allurements is?

What if our tongues are speaking

of things his lips would spurn?

How can we hope to help him unless from his we learn.

Your professional hairdresser knows the answer...

Was haircoloring first done in Africa?

Centuries ago in Africa (before it was explored by Europeans) beautiful black women used herbs and other ingredients to change the color of their hair. It was one way to complement their dark rich complexions... to accent their natural warmth and beauty. Whether or not Africans were the first to use this method, no one is sure. Yet, they are among the first in terms of recorded history to go through the then-tedious process of coloring their hair.

Today changing your haircolor can be as quick and as brief as a visit to your professional hairdresser. That's because many professional hairdressers use Miss Clairol® Hair Color to lighten hair, to make slight color changes and to cover gray. Hairdressing experts know that exotic blacks and browns are generally gorgeous for darker skin tones. Golden or red shades are stunning for lighter tan complexions.

Today black pride brings you closer to the cultural ways of your African heritage. Haircoloring is a part of black history too. Ask your professional hairdresser about changing your hair color with Miss Clairol... and be more beautiful than you already are.
