## THOUGHT FOR TODAY

The cry of the human heart is for peace, both within and without the world is torn with strife which springs from selfishness, jealousy, fear and hatred, these things find expression in social issues, in racial tensions, and in international conflicts. We know however, that in many ways these are but portrayals on a large scale of selfishness, jealousy, fear and hatred in hearts of individuals. Peace is to be found only in the will of God, anything that is contrary to his will, works against the loving purpose of him who made all-things and in whose hands are all men. Let us begin with a look at our lives and our homes. How much peace is there in our hearts and our family life? Each of us has to live his or her life in a physical world which consists of seeking to satisfy personal desires, some of these desires may be worthy, but we know well that conflicts of loyalties can be experienced in our hearts, that battles have been fought within, and that because of these, we know restlessness, disappointment and a sense of failure. If you want peace and happiness, Christ is the answer.

## Was haircoloring first done in Africa?

Centuries ago in Africa (before it was explored by Europeans) beautiful black women used herbs and other ingredients to change the color of their hair. It was one way to complement their dark rich complexions...to accent their natural warmth and beauty. Whether or not Africans were the first to use this method, no one is sure. Yet, they are among the first in terms of recorded history to go through the then-tedious process of coloring their hair.

Today changing your haircolor can be as quick and as brief as a visit to your professional hairdresser. That's because many professional hairdressers use Miss Clairol® Hair Color to lighten hair, to make slight color changes and to cover gray. Hairdressing experts know that exotic blacks and browns are generally gorgeous for darker skin tones. Golden or red shades are stunning for lighter tan complexions.

Today black pride brings you closer to the cultural ways of your African heritage. Haircoloring is a part of black history too. Ask your professional hairdresser about changing your hair color with Miss Clairol...and be more beautiful than you already are.
