## THOUGHT FOR TODAY

With God all things are possible. If the situation appears impossible, if there seems to be no way to meet some needs, let us remember that "with God, all things are possible." Knowing that the godness of God stands back of every experience gives us strength to meet it and to come through triumphant. God is always at work in and through us, bringing about perfect answers to our prayers. Let us make contact with the one source, God, He will show us the way, step by step, if we will let him. Let us open our minds and hearts to God's light and directions, knowing that nothing is impossible, discouragement will give way to faith. We will be able to meet all of life's experiences with confidence and courage because we know that God is with us and that his power and love will transform and transcend any limitation. Let us affirm in faith. "I believe that with God all things are possible. I give thanks for the perfect out working of his goodness." With God all things "Are" possible. Matt. 19:26.

## PALESTINIAN ARAB TO SPEAK ON ISRAEL AND THE HOLY LAND

A. M. Matar, a Palestinian Arab, will be dressed in his native Arabian garb as he presents an illustrated lecture on "Palestine and the New Israel" at 7:30 p.m. this Saturday evening in the Seventh-day Adventist Highland Square Church, 1720 North "J" St. (near Doolittle Ave.).

According to local Pastor Norman S. McLeod, the Biblical record shows that the Arabs are descendants of Abraham through Ishmael and Hagar, and in reality are half-brothers of the Jews. Among the many color slides that show important places in the Holy Land, Mr. Matar will present a view of the very rock were Abraham was told by God to offer his other son, Isaac, as a sacrifice on Mount Moriah.

Mrs. Matar will also appear with her husband in full Arabian costume, and the public is cordially invited to enjoy this free presentation, the Pastor further stated.

Church. The public is invited. Bro. Felix Glasco is the group manager. Any one interested in having the group render a program may contact Bro. Glasco.

And Students**

Your professional hairdresser knows the answer...

## Was haircoloring first done in Africa?

Centuries ago in Africa (before it was explored by Europeans) beautiful black women used herbs and other ingredients to change the color of their hair. It was one way to complement their dark rich complexions... to accent their natural warmth and beauty. Whether or not Africans were the first to use this method, no one is sure. Yet, they are among the first in terms of recorded history to go through the then-tedious process of coloring their hair.

Today changing your haircolor can be as quick and as brief as a visit to your professional hairdresser. That's because many professional hairdressers use Miss Clairol® Hair Color to lighten hair, to make slight color changes and to cover gray. Hairdressing experts know that exotic blacks and browns are generally gorgeous for darker skin tones. Golden or red shades are stunning for lighter tan complexions.

Today black pride brings you closer to the cultural ways of your African heritage. Haircoloring is a part of black history too. Ask your professional hairdresser about changing your hair color with Miss Clairol... and be more beautiful than you already are.
