

# We've Been WONDERING

WHY? one of the Guv's aids, namely Mrs. ---  
 ---- in her social aggressiveness don't check where "Tact" ends and being down right rude begin. Can you imagine anyone in their right mind approaching a married couple without being introduced and completely disregard the husband as if he didn't exist, and all but demand that the wife join her party.  
 ?????

WHY? some intellectuals that is so hung-up of their academic bag all but look down their sophisticated snoots at the grass root persons they are paid to serve don't get the message, like; education doesn't necessarily denote intelligence, and fools come in all size packages.  
 ?????

WHY? a certain HIC when he was on the outside looking in was straight as an arrow and stone square John, and now since making it on the inside looking out has donned another kind of jacket, like; "instant slick" don't realize that a person that steals for the Company will also rip the Company off.  
 ?????

WHY? some of the unfortunates that have had the bad experience to contract a dose and are relying on home remedies and "quacks" to get straight don't gethipped to the side effects of a case if not properly treated can result in insanity, blindness or worse. A call to the Health Dept. (385-1291) will give the answer straight from the Hoss.  
 ?????

WHY? ever so often when a new Church is being built there are those that come on with (quote)who needs another church. (unquote) Our comment (quote) If all of us "including yours truly" that need and should attend our chosen house of worship there would be standing room only. (unquote)  
 ?????

WHY? the sequences of 36-37-38-39-59-60-70-80. and 2-13-15-16-7-24-25-35. Are supposed to be lucky for Aquarius, Pisces and Aries.  
 ?????

WHY? one of our fast stepping Podneretts before she slowed down just enough to let the dude (she had in her hip pocket all along) that dug her the most lead her to the alter claim all she wanted was a husband and "now" after less than a year of domestic tranquility all she wants is a new house and a new bag to get off into. Could it be she didn't choose her hubby as carefully as she chose her wedding gown, like; for qualities that would wear well.  
 ?????

WHY? those that have checked on a certain self-appointed community leader's track record would assume that his mind is filled with morbid, depressing thoughts and worry about disasters that never or rarely-happen. From his actions toward his fellowmen his thoughts are like poison swirling around the mind. Guess we should pity and not scorn because where there is a heartbeat misery is just a footstep away.

Henry "P" for Puzzled

## Bible - Cannon Vote Against FPC Appointment

WASHINGTON--Nevada Senators Alan Bible and Howard Cannon praised the Senate's decision to hold-up the nomination of Robert Morris to be a member of the Federal Power Commission as "a major victory for the American consumer."

Bible and Cannon were among 49 senators voting today to recommit the Morris nomination to the Commerce Committee, a step which in all likelihood will kill the nomination. Final vote on the motion was 49 to 44.

"The Federal Power Commission occupies a key position in our Nation during the current energy crisis," the Nevada Senators said in a joint statement. "It is charged with regulating the natural gas and electric industries in order to insure that prices charged for these essential commodities are fair to the consumer."

"Unfortunately, in recent years the Commission's membership has taken on a strong pro-industry orientation which has led to decisions costing the American consumer millions of extra dollars."

Bible and Cannon said they were not questioning Morris' integrity but noted he has represented one of the nation's largest oil companies for many years.

"The question is not whether the industry's view deserves representation on the FPC," they said. "It is whether any other view is to be represented."

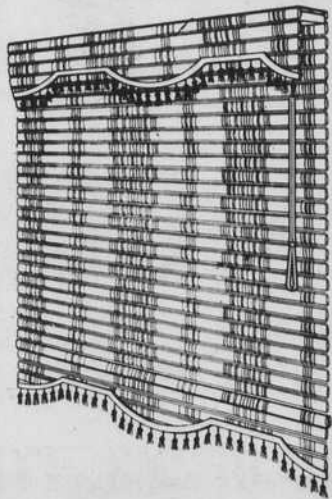

"Mr. Morris' integrity and competence are not in question," Bible and Cannon added. "But at a time when public confidence in the federal government is not high, it would be a mistake to award still another seat on this important agency to a lawyer who spent most of his career speaking for the oil and gas industry."

The Nevada Senators pointed to the Commission's recent approval of a 73-percent increase in well-head rates for natural gas which they described as "unconscionable."

"The addition of another pro-industry spokesman will hardly improve this situation," they said. "What is needed on the Commission is a new member to speak on behalf of the millions of American consumers who annually pay more than \$30 billion for natural gas and electricity."

The Morris nomination was strongly opposed by the three million member Consumer Federation of America.
