

We've Been WONDERING

WHY? the kind Soul that prayed, bought and begged for the chance to prove what a good provider, fine husband and father he could be to a ready made family and after less than six months of family obligations and domestic responsibility Ol Kind Soul is looking for an excuse to split. Could it be, even tho Ol Kind Soul looked before he leaped he still couldn't see beyond the body till now.
?????

WHY? the personality that has been pushed into the limelight and seemly has fallen in love with his image that public opinion has drawn don't look at himself in the mirror and ask who of those that now say "fat" when he says "butter" even gave him the time of day before he started on his honeymoon of publicity trip.
?????

WHY? the doll that is at the crossroads of several paths will be denied her if she chooses one certain path in the future the other path will be denied her, before being more confused by the advice of her best false-friends don't check on (in depth) some of those she know in the game with a track record. (different strokes for different folks.)
?????

WHY? the climber with a wide range of activity that has reached his goal and is throwing up road blocks and setting traps for some others that are trying to make it in don't get the message, like; he can "try" to prevent others from becoming better qualified than he, but "anyone" that stands in the way of progress will be flattened out where they stood.
?????

WHY? Mr. Big S--t of whom listen badly and read even worse, except when the talk or news item is about him, then he is all eyes and ears don't get the message, like; conceit may puff a man up, but can, never prop him up.
?????

WHY? the sequences of 21-22-31-32-33-34-35-36. And 51-52-53-63-64-65-75-76. Are supposed to be lucky for Aries, Taurus and Gemini.
?????

WHY? the couple that made it to (for the want of a better name) Snake Annie for a lucky hand and on the way home their car was wrecked and when the incense was lit the bathroom curtains caught fire don't get the message, like; Superstition is but fear of belief, religion is confidence and trust.
?????

WHY? that family in a certain neighborhood that pays Housing Authority the grand sum of Forty One bones a month for a four bedroom one car garage house when they first moved in they borrowed all they could, begged what they could and now the kids are practicing the fine art of burglary don't realize parents can be prosecuted for some crimes of their offsprings.
