Golden Valley Gets Official Affiliation

At the Annual session of the California District Council (C.D.C.), which includes the State of Nevada, the Golden Valley Apostolic Church, located at 622 Jackson Street, Las Vegas, was officially affiliated with the California District Council of the Pentecostal Assemblies of the World (P.A. of W.)

At the Pentecostal Young People Union (P.Y.P.U.) session, a member of the Golden Valley Apostolic Church, Sis. Sadie Brown, was elected Assistant State Secretary.

Sis. Brown, teamed with Sis. Sally Gamble, was awarded a trophy for scoring the highest on the State Bible Quiz, taken from St. John 7 through 11th chapters. Competition was open to all the churches, which number in excess of seventy, in the California District Council.

The local church which is pastored by Elder Charles E. Gamble, invites the public to worship services at anytime.

BAHA'I FAITH

The prophets of God have been divine shepherds of humanity. They have established a bond of unity among mankind, made scattered peoples one nation and wandering tribes a mighty kingdom. They have laid the foundation of the oneness of God and summoned all to universal peace. All these holy, divine Manifestations are one. They have served one God, promulgated the same truth, founded the same institutions and reflected the same light. Their appearances have been successive and correlated; each one has announced and extolled the one who was to follow and all laid the foundation of reality. They summoned and invited the people to love and made the human world a mirror of the Word of God.

CHURCH OF SCIENTOLOGY

The Church of Scientology Committee on Public Health and Safety today released a nine page report on their review of drug therapy for Clark County school children. The report includes recommendations for local upgrading of the program and calls for action by the Food and Drug Administration to clarify the use of stimulant drugs for hyperactive behavior.

The Committee's initial report dealing with the Medical Consultant Program was released last fall. In mid-March, Governor Mike O'Callaghan called for a review of the program which the Committee offered to undertake.

According to Committee spokeswoman Rev. Laurie Zurn, both negative and positive aspects of the program were explored. Parents, teachers, school nurses, psychologist, and private physicians were consulted.

"Locally, the lack of physicals for children prior to placement on the program seems most serious," she said. "However, an underlying problem is the definition of hyperkinetic behavior which is open to wide interpretation. While extreme restlessness and frustration on the student's part are considered symptoms, so are withdrawn and very quiet behavior," Rev. Zurn added.

The report charges that the FDA must clarify "hyperkinetic" and additionally must monitor the long term effects of the stimulant drugs used on such programs.

Copies of the review have been submitted to the FDA as well as to Nevada Health Planning officials.

Interested consumers can obtain a copy by calling 382-6723.
