"Your Guiding Stars" Astrological Forecast

By Erica King

What do the stars say about you? Check your birth sign below and learn what the stars have in store for you.

ARIES "The Ram" (Mar. 21-Apr. 20) You are at a low point this week. This could have affected your popularity and given you a feeling of not being needed. Sometimes this aspect causes lack of confidence, but you are a capable person and a bit more effort should solve your problem.

TAURUS "The Bull" (Apr. 21-May 21) There are a few surprises in store for you if you think you have found a sure-fire way to stay at the top of the heap, Luv. Most of your little picadillos are common gossip...so "cool it" before you go too far. You might get caught in your own net.

GEMINI "The Twins" (May 22-June 21) The chances are good that your new romantic interest will turn out a smashing success, but those tall tales seem wide of the mark to me. Better just stick to the hearts and flowers, dear Gem.

CANCER "The Crab" (June 22-July 23) Whether it is fact or fiction, your silvery tongue seems to be making a gigantic hit with opposite sex, right? Be careful, pal, two can play at this fascinating guessing game. You might be in for an eye-opener.

LEO "The Lion" (July 24-Aug. 23) You may not be a genius, but you can make yourself sound like one and that is half the battle, isn't it? But one of these days you will have to produce, so curb your enthusiasm a smidgen. 'Nuff said.

VIRGO "The Virgin" (Aug. 24-Sept. 23) Don't allow negative feelings to take over and tell you that it is foolish to explore all those new ideas. Make a complete turn-around. You will benefit greatly from a whole new view of things. Have faith in your own thoughts.

LIBRA "The Balance" (Sept 24-Oct. 23) Some of your personal luck will be good, but problems are likely to force changes in your close associations. You must undergo an "extremely tough" turn-over if you are to succeed in overcoming your difficulties. A co-worker could be the cause of some strife.

SCORPIO "The Scorpion" (Oct. 24-Nov.22) You are positive that your co-workers and family can't get along without you, but don't chain yourself to a day-to-day routine. Things will work out just fine. Take some time off to recoup your energies. Your kind and gentle nature is often imposed upon.

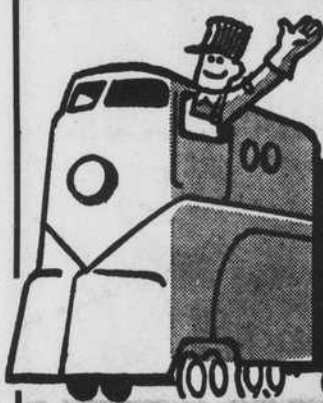

SAGITTARIUS "The Archer" (Nov. 23-Dec. 21) Sometimes, Luv, you think you can stand the strain no longer, right? Carry on with your work and a marvelous meeting will soon take place that will have you walking on air again. Patience is the word. The number 15 should interest you.

CAPRICORN "The Goat" (Dec. 22-Jan. 20) You can't seem to make up your fickle mind whether you've made a mistake or not, right? You seek harmony, but you've completely upset the apple-cart not to mention throwing any hope for a reconciliation far out of kilter. Silence is golden, pal.

AQUARIUS "Water Bearer" (Jan 21-Feb. 19) This is a very good day for all things that involve money....and exceptionally good for anything dealing with numbers. Thursday you will be concerned with the number 7, 3, and 4. Do not get involved in arguments in the A.M. Remain silent and you will learn much.

PISCES "The Fishes" (Feb. 20-Mar. 20) There are some who are trying to confuse you with small talk and causing you to lose your balance temporarily. Don't be a softy. Don't give up, that's the story of success. Your lucky number is 4, keep that in mind.

IF TODAY IS YOUR BIRTHDAY you tend to be forceful, dynamic and brimming with self-confidence and initiative. You have a cheerful and optimistic outlook on life, a capacity to dominate in social situations and a marked ability to influence the feelings and attitudes of others. You are not easily discouraged, have a strong liking for others, and place a high value on friendship. You are a go-getter and a self-starter in every sense of the word. You itch to get going and are irked by idleness. The one thing you find exceedingly difficult: To slow down and take it easy. Fields in which you could make an outstanding success: Business management, organization work, engineering or in any branch of the law.
