There are many candidates running for office who profess to be concerned about poor people. One candidate - Gill Blonsley for County Assessor stands tall as being a man who has concerned himself about the underprivileged and has proven that he cares.

It could be that back when Gill was a boy in Chicago, his father was the attorney who successfully fought for Dr. Percy Julian to live in a home in an all white suburb of Chicago - and at great personal loss, defending the civil rights of people - this was the example set by his father.

When Gill left the Assessors office as an assistant 6 years ago to become Chief Administrative Officer for the Clark County Health Department, he brought that concern with him. He joined the fight to have bus service to the clinic doors so mothers with babies would not have to walk the four blocks with them - the same aid for the aged made it easier for all. ning was doing a good job and they refused to accept the order, and instead opened the clinic facilities to help the EOB maintain better service.

Rev. Hosea Williams, Atlanta SCLC Pres. Says

ATLANTA, GA. (August 22, 1974)---I guess it's no more than right, the selection of Mr. Nelson A. Rockefeller as Vice President of the United States just sets the record straight. Now the man who owns the country is running it.

Also, this may be another case of "truth crushed to earth rising again," because we must never forget Attica--where 39 Americans were killed by state police bullets. The trials of four of the 61 Brothers, who indicated for 1,300 crimes, will begin September 4th.

The election of Mr. Nixon resulted in the truth about Watergate--we all should pray that the selection of Mr. Nelson A. Rockefeller as the Vice Presidential nominee will result in the truth about Attica.
