Aaron Williams Where I stand

Commissioner Aaron Williams was reported absent voting on the Monorail question when it came before the County Commission.

In a statement to the VOICE - Commissioner Williams said, "I was attending a personnel session of the Planning Council that was in the process of hiring a director."

"From the start of the Monorail issue I am and have been opposed to the project. My position is a matter of record."

Commissioner Williams wanted to remind everyone of his position, and only because of his deep-seated interest in the Planning Council, and the direction it must go, thought that the selection of it's director took priority over voting on an issue that has been before the Commission for many months.
