Black is still Beautiful

In every way,

In the things we do,

and the words we say,

That is what we the blacks  
must see,

Because we're minorities,  
you and me,

So called black movies  
came and changed our style,

But it only lasted for a  
little while,

Super Fly, Willie Dynamite,

Trouble Man and the Mack,

Those movies put a big change  
on the black,

They seemed to of missed what  
really concerns us,

Better Housing, Better Jobs,  
Better Rights and Better Bus,

Putting down black movies

that I am not,

Black is still beautiful - or

have we forgot?
