

VA FACTS

Don't let a lost birth certificate or marriage license deter you from seeking benefits, the Veterans Administration today advised eligible veterans, dependents and survivors.

Officials said less formal proof of marriage and birth have been acceptable since 1971 when this information is needed to establish claims for bigger checks.

Formerly the VA required all statements of marriages and births to be supported by formalized documentary evidence, it was noted.

pretty

If you're one of our gas customers you're sitting pretty. But...

For our residential and most commercial customers there are adequate natural gas supplies to meet your needs. Your home or business gets top priority at Southwest Gas.

But...

Because there are ample supplies for heating, cooking and water heating is no reason it can be wasted. Natural gas is a clean-burning premium fuel. Use it wisely.

Lower your heating thermostat. Change furnace filters as often as needed. Insulate and weatherstrip your home. Don't use more flame than you need when cooking. Operate your dishwasher, clothes washer and dryer with full loads. Fix leaky hot water faucets that waste both water and gas.

Little things perhaps. But they add up in the nationwide effort to conserve energy.

Natural Gas, the energy saver.
