

# ODDSMAKERS

The goal of the Oddsmakers is seven active and healthy troops in eleven months. This is the second month with nine to go and at this time their plans are reported to be on schedule.

This is a major effort for the Boulder Dam Area Council of the Boy Scouts of America. Keeping Active troops in West Las Vegas has been a serious problem. The Council has cards on 100-200 boys from West Las Vegas, who are interested in being Scouts.

The problem has been adult leadership for the troops. It seems that the parents have an excuse for every situation. The boys are not asking for a lot of your time, just a little. If the parents would all work together, it would only take a little of each one time and not very much of anyones time. Try it - you just might like it.

If you are interested in being an adult leader with all the proper training, please call Oddsmaker Norm Stone at 736-4366.

The Boulder Dam Area Council is joined in this latest effort by the Southern Nevada Association of Christians (SNAC), a newly formed non-profit organization. It is hoped that this is the winning combination for the boys of West Las Vegas.

The Oddsmakers are Norm Stone, Scouting Director for the Scouting Council; Carson Madison, Assistant District Commissioner, Scouting Division of the Council; Terence Johnson, Unit Commissioner, Scouting Division of the Council and Chairman of the Board, President and Executive Director of SNAC.

We hope it's "Seven Come Eleven" for the Oddsmakers.

# BUNKER BROTHERS OPEN NEW FACILITY

Visitors to the beautiful Eden Vale mausoleum complex at 1216 Las Vegas Blvd. North, will now be welcomed to the recently completed Administration Building for Memorial Estate Planning. Construction on the structure which houses 4500 square feet was begun in August 1973 when the rapid growth of Security Counseling Service, Inc., the before need division of Bunker's Eden Vale, indicated the need for larger facilities.

The office force and counseling staff completed their move into the modern, color-keyed structure on January 1 of this year. A formal opening of the building will be announced at a later date.

A double door entry leads to the business office where Tina Ives, Business Office Manager and her staff are situated. Private offices of Security Counseling President, Lou Godino and Secretary-Treasurer John Winn are warmly furnished and assure a maximum of privacy. John Winn also serves Security Counseling as Director of Sales of the organization. Berkeley Bunker, Vice-President, and President of Bunker's Eden Vale, will continue to maintain his offices at the Eden Vale Mortuary at 925 Las Vegas Blvd. North.

A large conference room and separate training room provide counselors with a spacious training center where educational and training seminars are conducted regularly by Field and Training Manager Olie Onstott and Counseling Supervisor Jim King. The educational training sessions are

offered to men and women already engaged in professional counseling and to those who wish to enter the field.

In addition to a lounge and snack area for the thirty member staff, accommodations have been provided for resident security to assure twenty-four hour surveillance of the mausoleum, administration building and the grounds.

The entire area is defined with a wrought iron and concrete wall. Shrubs and trees complete the serene setting for the memorial estates.

The mausoleum itself was formerly opened in May 1973 when the Chapel of Eternal Peace was dedicated. Future expansion plans reveal an extension of the existing Chapel of Eternal Peace Mausoleum and a new complex containing approximately 13,000 crypts, Building and Garden of Remembrance Mausoleum, and the addition of gardens, statuary and landscaping that will complement the secluded grounds.

Bunker's Eden Vale Mausoleum and the new Administration Building for Memorial Estate Planning are open to the public daily for visitation.

## WHAT'S THE ANSWER?

QUESTIONS ABOUT THE ENERGY ISSUE WERE SOLICITED FROM PEOPLE-ON-THE-STREET IN SIX MAJOR CITIES BY GULF OIL CORPORATION. HERE IS ONE OF THE QUESTIONS:

▶ WHAT ARE THE OIL COMPANIES DOING TO GET US ALTERNATE SOURCES OF ENERGY?

▶ ANSWER: Gulf and other companies are working on almost every known substitute for crude oil and other energy sources. The most promising is nuclear energy for utilities, the development of coal resources, and the conversion of coal to gas, liquids and clean solid fuels.

DO YOU HAVE A QUESTION ON ENERGY? Write to: What's the Answer, Gulf Oil Corporation, P.O. Box 1166, Pittsburgh, Pennsylvania 15230.
