DRUG COUNSELING	HEAD-START	SENIOR OPPORTUNITIES SERVICES
	LEGAL SERVICES	YOUTH DEVELOPMENT PROGRAM

HOUSING

All citizens of Las Vegas are entitled to a quality standard of living particularly housing. I support continued and expanded public housing, as well as a rehabilitation of existing housing in problem areas such as Vegas Heights and Madison Terrace, which would provide Home Ownership as well as low income rentals. I would continue the effort to establish offsite improvements for Vegas Heights subdivision (streets, lights and gutters).

EMPLOYMENT

It is essential to social harmony and quality of life for all citizens to have employment. Opportunity programs such as Comprehensive Employment Training Act and Economic Opportunity Board should be continued and expanded upon to allow the less fortunate an opportunity for training, counseling and jobs. City government should reflect on all levels of employment including management, ethnic ratios, population, etc. Every effort should be made under present city ordinance to eliminate illegal aliens employment, which deprives many of our ethnic and poor, entry level jobs and above in many cases.

BUSINESS

West Las Vegas, particularly Jackson Street and Golden West areas, should be redeveloped, and through City, State and Federal agencies, minority businessmen should be given the technical, management and financial assistance so that they might become part of the mainstream of local and tourists business trade. Take affirmative action to secure municipal contracts with minority businesses.

GOVERNMENT

(CONSOLIDATE) Every effort possible should be made to assure that whatever future city/county consolidation plans that are acted upon would guarantee elected, as well as appointed representation for West Las Vegas Citizens. The Mayor's office will always at all time be open to any citizen of Las Vegas for inquiries, problems and advice.

YOUTH AND RECREATION

Establish a full staff with community orientated recreation programs at Doolittle Center and the new mini parks. Complete the physical structure of Doolittle Recreation Center, i.e., tennis courts, volleyball courts, etc.
