Buy a smoke detector and install it outside of your sleeping area. It should have a testing agency label.

Wear tight sleeves when you cook. Loose fitting garments can catch fire.

If your clothes catch fire, stop, drop and roll. Put cold water on a burn.

Smoke kills. Shut doors to stop it from advancing.

If you get caught in smoke, get down and crawl. Better air is near the floor.

Use flashlights, never fire, inside a tent. Buy a tent labeled flame-retardant.
