POLITICAL FOOTNOTES...

By **BROADBENT**

A Good County Commissioner

During a period when most Republicans are hoping for a small turnout in West Las Vegas, County Commissioner Bob Broadbent is working hard for Black votes.

If the Black community has learned one thing in past political campaigns, promises mean nothing...Party labels mean nothing...and the words liberal and conservative have nothing to do with putting food on Black tables.

What West Las Vegas needs from politicians, White and Black, is honesty. If a man or woman in public office is for us or against us, it doesn't matter if they've got the guts to stand up and tell it like it is. We're not asking for favors or hand outs. County Commissioner Bob Broadbent supports West Las Vegas sometimes, sometimes he doesn't, but one thing you can always count on...You know where he stands. He has the guts to tell you in front.

Another thing we've found, if Broadbent is misinformed on an issue and you can prove he's wrong, he's not afraid to change his stand.

The Black community doesn't need bleeding hearts in public office. We need honest people, friend or enemy. In fact we're better off with a Lester Maddox or a George Wallace in office, than some con artist without the courage of his convictions.

Bob Broadbent is a Republican, to some Black voters that may make a difference, he's no bigot, he's honest and he gives fair and proper consideration to anyone who has the facts on their side, to us that is most important.

Don't be the puppet of any political party or philosophy. Vote for the people who offer the Black community a fair shake for future prosperity.

Bob Broadbent will give us that chance.

SAMPLE BALLOTS

Sample Ballots for the November 2nd General Election were mailed Oct. 18 and voters should start receiving them by Oct. 20, and all of them should be delivered by Oct. 23. If Sample Ballots are not received by that date, the Clark County Election Department should be contacted.

Voters who have moved after the close of registration for the election, or prior to the close of registration, but neglected to change their address with the Election Department, will not receive their Sample Ballots.

On the face of the Sample Ballot will be found the precinct in which the voter is registered, and the polling place at which that precinct will be voting. So if you have not received a Sample Ballot within a reasonable period of time after their mailing, to save unnecessary confusion on Election Day, call the Election Department sufficiently in advance of November 2, to find out your precinct and polling location for the November General Election.
