GREATEST ALBUM IS "GOLD"

It is only appropriate that the title of the Ohio Players greatest hits album is "Gold." After all, every previous album the group has done for Mercury has gone gold (in some cases, platinum) as have three singles. And let's not forget that all eight Mercury singles by the Ohio Players have gone Top 10 R&B on the Billboard charts. And every album to number one.

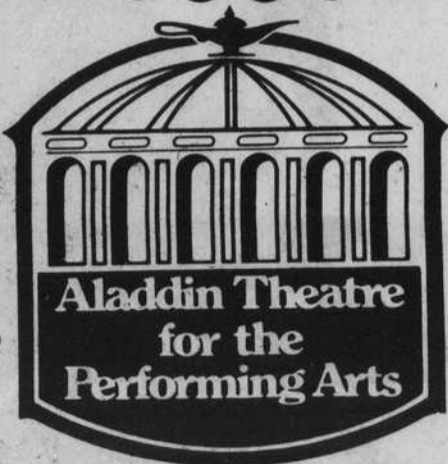

As is obvious, success hasn't gone to the Ohio Players' heads. Their constant search for new musical ideas is reflected in "Gold." The music on the album is a verification of the Players' near-perfect track record. No short printers these musicians; they have shown the talent to be musical marathon men.
