in the White House.

The third and final straw is the lack of or the selection of black men and women to the salary paying undersecretary positions in the government. Two shots have already been fired. First, Carter has said his cabinet officer will do their own selecting of their staff. These are mostly southern boys. Second, the lilly whiteness of President Carter's only personal staff who have access to these appointments. There are those of us who believe blacks should get the rope ready for the hanging.

LAS VEGAS TRANSIT NEW MAIN STOP AND TRANSFER CENTER

Effective Mon., Feb. 7

Better and more convenient service for bus passengers in the Las Vegas area is promised with the announcement of relocation of the main stop and transfer center for the Las Vegas Transit System.

Effective Monday, Feb. 7, according to General Manager Barry Perea, all local routes will board on South Third Street, between Fremont and Carson.

The only exception, he said, will be Route 1 (Hyde Park) and Route 10 (University), which will board around the corner on Carson Avenue.

Three other routes, No. 3 (Salt Lake Highway), No. 4 (Boulder Highway) and No. 6 (Strip), will continue to make additional stops on North Third Street as well as at the new location.

Another feature of the South Third Street stop area will be a sales and information booth which will be located at 114 So. Third. This office, which will be open from 7 a.m. to 11 p.m., will handle sales of commuter cards, tokens and school passes. Also, in a cooperative effort with the Downtown Progress Association, it will serve as a tourist information center.

"This is the best location we have ever had to operate out of", Perea said. "It is our hope that it will provide added convenience for all of our passengers boarding and transferring there."

Perea said the move is the result of cooperative planning by Las Vegas Transit, the Downtown Progress Association, Regional Streets and Highways Department and the City of Las Vegas Traffic and Engineering Department to bring about improvements in bus service to the community.

Perea also said that there is no change in the current fare structure, which is \$3.35 for a 10-ride adult commuter card, six tokens for \$2.40 and 70¢ for the adult cash fare. The cards and tokens may still be purchased from drivers or at the new location.

BROCK PETERS

"THIS FAR BY FAITH" is a study of the and its effect on the larger American society. A weighty subject indeed. Producer BROCK PETERS collected an impressive list of Black experts to explore the influence of Black culture on all our lives.

The A. T. & T. sponsored special will air on February 22nd nationally. In an innovative new technique Peters has combined the exploration of the past and the present with a dramatization with distinguished actor-director Edmund Cambridge in the role of the "Griot" (the living historian of African culture and folk tales); and with interviews and commentary by novelist James Baldwin, Yale Professor Carmen de Lavallade and choreographer-director Geoffrey Holder; Beah Richards, Glenn Turman, The Edwin Hawkins Singers, Roscoe Lee Browne, United Artist Blue Note recording artist Donald Byrd and students from the Dillard University campus in New Orleans.

Oscar-nominated screenwriter Lonnie Elder III scripted; Composer Coleridge Taylor-Perkinson scored the music.

"THIS FAR BY FAITH" was produced by Brock Peters for this company Delbro Enterprises, in association with the Peterson Company.

Being sandwiched in between the filming and post production on the film are Peters nationwide musical concerts of the performance of his United Artists release "BALLAD FOR AMERICANS", concerts upcoming are scheduled for Birmingham and Seattle.
