

'SPIDER MAN'

Mike Burns

"Spider Man" Mike Burns, the stringbean center of the Chaparral Cowboys, reentered last weeks game between Chaparral and Rancho in the second half after getting in early foul trouble and being held scoreless and led his team to a stunning 89-85 overtime victory over the Rams. Burns ended up scoring his average in league play - twenty points and dominated both boards plus the inside play in the second half and overtime period. The 6-6 junior, injured early in the season has been instrumental in the Cowboys strong play of late and now the Chaparral pokes are looking at a possible Sunset title.

Stop N Go and the local basketball community salute this fine athlete.

NAVY COMBAT ART EXHIBIT IN LAS VEGAS

A special showing of twenty-one original works of art from the Navy Department's Combat Art Exhibit will be on display February 21st thru the 24th from 8 AM to 10 PM and from 8 AM to 4 PM on the 25th at the UNLV Student Union Building, in honor of National Black History Month.

The paintings were selected specifically to show minority participation in the Navy as depicted by celebrated black artists.

The entire Navy Department Combat Art exhibit, or "Operation Palette", consists of over 4,000 action paintings and on-the-scene drawings made by artists on voluntary assignment with the Navy since the early days of World War II. Most of them are works of nationally known artists, and many paintings are individually famous, having been reproduced in national magazines and books. The entire Navy collection is considered a national treasure.

This special Las Vegas showing has been arranged by the Navy as part of their joint recognition and celebration of National Black History Month. The following groups are sponsoring the Las Vegas show: Navy Reserve Center Las Vegas and the Las Vegas Navy Recruiters.

I, Eugene Collins, am running for President of the Las Vegas Branch NAACP because I feel that there is a need for change. Changes can only be brought on by doing. Doing means caring enough to act.

I have been a native of Las Vegas for 15 years or more. I am married and have three children. I am presently employed at the Nevada Test Site as a Journeyman Wireman.

For the past couple of years, I feel that the NAACP has failed to live up to its commitments made to the community; thus, causing the black people to lose interest in the organization. Before the interest is completely lost, we as minorities, will have to reorganize. Reorganize so that we can reestablish our claim as a proud race of people, capable, willing and skillfully enough to obtain and maintain high positions in any employment field.

If I am elected President of the Las Vegas Branch NAACP Chapter, I will see that justice is done in our community. I have seen and know what the problems are in our community. I believe that all people should be treated equally. I will see that equality is carried out. I will go into the hotels and see that minorities are there. I am willing to listen and help our minorities that have failed in the future to get anywhere.

I attended Coahoma Junior College in Clarksdale, Mississippi. I majored in Physical Education. I also attended which is presently the University of Las Vegas, Nevada. I went to school as a Drill Help Trainee through the Operation Engineering. I attended school for five years to become an Electrician.

When you go to the polls on February 27, 1977, please remember Eugene Collins.
