

WESTSIDE COMMUNITY COMPREHENSIVE DEVELOPMENT PLAN

WANT A NEW JOB OR NEW SKILL?

The Las Vegas Valley is going to have various types of industry as time goes on. New industries will be moving into this area. These firms are concerned with available labor, the occupational skills of the labor force, and availability of people able to be trained for their company. The Westside Community Economic Development Plan with the Four Corners Program and the State Department of Economic Development is building a 'Skill Bank' of the local labor force. If you are listed in this 'Skill Bank, your opportunities for employment with new industries will be improved.

UNTRAINED BUT WILLING TO WORK? Have you been out of work a long time? Do you want to be trained for a skill? Are you a housewife that wants a job outside your home? Have you recently left school and need vocational training? Do you want to work in another type of business? Or do you just need a change?

**WESTSIDE ECONOMIC
DEVELOPMENT PLAN**
2226 E. Cheyenne Avenue
North Las Vegas, Nevada 89030
