

YOU AND THE STARS

by Sylvia Halrston

August 14-21

ARIES — March 21-April 20
Career and money sources are favorable, and you use practical and good judgment in these matters now. August will see you making big decisions and changes. You enjoy the new flurry of activity and things to do. Your romantic life, too, takes on a new aura and there is a sense of adventure and new horizons for future conquering. If you are not traveling during this period, you will enjoy entertaining and family relationships at home.

TAURUS—April 21-May 20
If invitations are extended to you during this period, accept them. New and exciting things are in store for you. If you are smitten by the romantic bug, accept this also as this could blossom into a "too good to be true" romance. You are more communicative and easy to relate to others during this period. You may be able to bring better understanding between yourself and those dear to you. You have a good "luck" factor helping in your money-making department now and alertness may enable you to get that financial windfall you may have wished for.

GEMINI — May 21-June 20
With the two most dynamic planets of the solar system in your personality area now, you are creating quite an image. You couldn't ask for a better cycle financially or personally. Your only problem may center in your home area as you have neglected domestic matters in your ascension to progress in career and material opportunities. Geminians who are single and eligible have a bright picture where romantic matters are concerned with good prospects of meeting and developing new relationships. Speculation and social pleasures are spotlighted at this time.

CANCER — June 21-July 22
If you have a health problem during this period it is best to take care of it immediately. An old condition may flare up to bother you. Avoid excesses and get as much rest as possible. The planets give good assistance in this area during this period, but good common sense on your part is also essential; Jupiter can't do it all. Otherwise things should go well and the occasional snags concerning family or domestic matters should not be a hindrance to your progress, or in keeping peace with your lifemate.

HAPPY BIRTHDAY LEO!
July 23-August 22

Your symbol is the mighty and picturesque Lion, and the traits of this sign match the symbol. Aside from the dynamic traits traditionally associated with Leo, you Leos like the "center stage" spotlight. You are happiest and at your best when your lifestyle allows you to utilize your ability for decision making and powerful self expression as well as creativity. Love is a must in the lives of Leos, who tend to lavish their large supply of emotional expression on their family and true friends. During the next coming year the labor, that the Saturn transit of your sun sign, imposed upon you, will see results of past application and diligence. You have undoubtedly also experienced many changes in your home sector, caused by the general dynamics of erratic Uranus in this area. This aspect sometimes destroys what is old in order to build what is new and better. Your dynamic lifestyle will allow your creative talents to blossom as you use this period of change to your advantage for future success.

August is usually a joyous period for Leo, and the restrictive and sometimes worrisome burdens you may

have to endure should be compensated by the good companionship and social life and activity. You may have opportunity to travel in late August for pleasure. You will now get a better balance between work responsibility and relaxation. Big plans are in the making. Accept the joy this period offers. Though responsibilities may persist for a while, increased financial prospects and stature will more than compensate.

VIRGO—August 23-September 22

If this period seems difficult to you, it could be because of an obstinate attitude on your part. It is not easy for you to talk to others about your feelings now, but a good friend is just what you need now. You want to escape the monotony of everyday routine, to enjoy your life. You will get the chance late in this cycle when your plans begin to materialize. For those of you who seek new relationships in romantic or social affairs, you may find the answer in group affairs and activity.

LIBRA — September 23-October 22

This period may see you emerging as a new person, personality-wise. You enjoy your environment at home and at work as new interests replace the old. This is an exceptionally good period for romantic minded Librans. If your financial resources have been cause for concern to you, shifting planetary patterns will assure more stability in this area now. Cultural and social projects may keep you quite busy as your expanded outlook brings much diversity.

SCORPIO—October 23-November 22

You and your spouse may not see eye to eye on a matter of importance during this period. Use the gentle approach to solve and settle this

matter. It is the nature of Scorpio to be secretive, but an open and affectionate attitude is needed, however, because others may not be aware of pressures you are under. This family friction will ease up as this cycle comes to a close. A new cycle is now under way for Scorpio, which will be beneficial and bring much happiness.

SAGITTARIUS—November 23-December 21

Be extra careful of your health habits during this period. You are kept busy with career, business and social life, but find time for relaxation. Relaxing with good reading material will do much for you now. Expect communication with someone from whom you've been estranged, but always enjoyed as a friend. Social affairs are in the offering. Accept invitations and do your share of entertaining. Your typically friendly, outgoing manner and ability to relate to anyone insures your popularity now.

CAPRICORN — December 22-January 19

Partnership and joint affairs are highlighted during this period for you even though you consider yourself a loner in many ways. This is a period when you will reach out to others in a positive way. You also can get involved in a project that promises a constructive outcome. You may not be using your talents fully. You want a better income and may feel that you are getting nowhere by staying where you are. Ideas you get now may develop into a strong course of action. Follow up what you begin during this cycle.

AQUARIUS — January 20-February 18

You are feeling low in spirit and rather unhappy during this period. This is due to Neptune conjoining the

Moon which usually brings about depressive moods. You'll bounce back and become more optimistic at month's end, when the Moon enters your sign. Meanwhile, since this is a state about which you can do nothing, settle down to orderly routine and count your blessings. Enjoy social activity. You may be the recipient of surprise financial help at this time.

PISCES — February 19-March 20

This is a significant period for you, especially those who are married or have strong partnership ties, as the Sun enters this sector of your chart. Whatever your status, this aspect will have strong implications for you in personal relationships. Some Pisceans will take a new spouse or partner into their lives. You may be able to make some extra money during this period. Speculation and minor gambling is favored perhaps from an investment or a lottery win. Do all that you can in a constructive way.

Prayer Poem

The famous hymn, "All Hail the Power of Jesus' Name!" written in 1779 by Edward Perronet, sings familiarly God's praise.

*All hail the power of Jesus' Name!
Let angels prostrate fall;
Bring forth the royal diadem,
And crown him Lord of all.
Let every kindred, every tribe,
On this terrestrial ball,
To him all majesty ascribe,
And crown him Lord of all.*

Enter into God's house with praise on your lips and heart this Sunday. A life of praise is a life of peace.

don't risk it!

Black Poetry

"Sissy"
(To Marion Lee)

*"Hey! Missy, what's your name?"
"It's Sissy, and I'm on my way to fame,
The day will come
When I'll leave home,
Never to return
The bridges ahead I will cross,
The ones behind I'll burn."
"I'll make my mark in medicine
For a nurse I want to be,
To give aid and succor
To mankind,
Less fortunate than me."
"I'll sever all the ties I know
Except for... (the one who is)
My older sister
And very close to me."*

*Who was so dedicated,
Deserves nothing
But the best,
After toiling, oh, so tirelessly
Sissy, herself,
Now needs a rest.*

*No longer can she give aid to man
Or comfort for awhile,
The pain
She feels within,
Is hidden by her smile.*

*She's still the brave old Sissy
With fight left in her yet,
Say a prayer
Wish her well,
That better she will get.*

—Edgar J. Willmott

*The years have come
And the years have gone,
Her desires have been fulfilled
Now the brave and helpful Sissy,
Herself, it's sad, is quite ill.*
