J. D. Smith Jr. High, and Von Tobel Jr. High. She has also worked a number of Elementary Schools and High Schools in this capacity; her job consists of many duties, some as follows:

1. Rap session with students.
2. Home visits to parents.
3. Getting clothes and food for needy families and assisting in referrals to proper organizations to help needy families.
4. To assist in developing worth while programs effecting minority students.
5. To establish a better relationship among students, school, and community.

She feels that if these objectives are applied there will be no such thing as failure.

Gracefull Workers Club

The Graceful Workers Community Club awarded two scholarships for the 1977-78 school year, according to Mrs. Jessie L. Windom, President, and H.P. Fitzgerald, Scholarship Chairman.

Mr. Greg Heard, a Business Major at Texas Southern University was awarded \$361, and Miss Sandra Gray, an Education Major, also attending Texas Southern, received \$330.

Mr. Heard and Miss Gray are both graduates of Las Vegas High School.

REV. DUNN BLASTS CONVENTION CENTER AUTHORITY ACTION AS DETRIMENTAL TO THE ECONOMIC INTEREST OF THE BLACK COMMUNITY

Rev. Dunn

The Las Vegas convention and visitors authority proves again that it does not give a damn about the black businessman in West Las Vegas when it voted to embrace a consultants report predicting financial disaster for an arena in downtown Las Vegas.

This is the one opportunity that will give the black businessmen some tourist action.

I take exception to the report of touch Ross consulting firm that completely ignores the contribution of the black community when he applies the Equity Theory. He talks about the Downtown Progressive Association contribution, North Las Vegas contribution to the Authority coffers and not a damn word about the black community contribution in the form of tax dollars and sweet equity in the coffers of the Convention Authority. He completely omits anything about the black tourist which was just finalized by the authority, as potential resources for the development of the Downtown facilities.

The Convention Authority is wasting tax payers dollars hiring doing consulting who do not know how to get us out of this Economic Wilderness.

A simple telephone call or a 13¢ stamp to State Senator, Joe Neal, Vice Chairman of the Community Development Corporation, or Executive Director Ruby Duncan, could have provided the authority with a much more fruitful report. As a matter of fact, they can tell you how the facility can be financed, or they can show them how the facility can help the Black Community, or they can tell you how to do both, and it wont cost \$80,000.

Because of the authorities ignorance and knowledge of the ability of the total Community, it looks like we are going to have to go back to the Streets, to Re-dramatize our need to be a part of Las Vegas' growing Economy.

Just maybe we should become the foot soldiers of the E.R.A. We are not just going to sit by and let this opportunity of a life time by pass our community. We are going to organize as never before for the sight behind the Union Plaza.

What are YOU doing to help YOUR community?

SOUND ADVICE

Cold Weather Care

To many persons winter, with its low temperatures, icy winds and cold wet snows, is a period of discomfort. To others, winter, with its opportunity to participate in cold weather sports activities, is the most enjoyable time of year.

However, regardless of which category an individual fits into, winter is the time when particular care should be taken to protect against hearing loss problems.

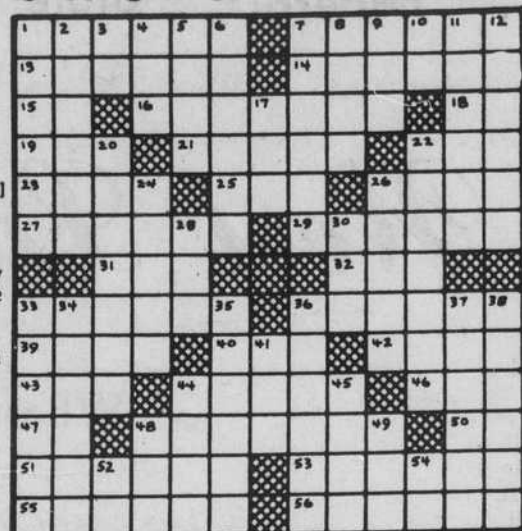

This is the warning of the Beltone Crusade for Hearing Conservation. The crusade is sponsored by Chicago-based Beltone Electronics Corporation, world leader in hearing aids and electronic hearing test instruments, as a means of encouraging hearing conservation.

Prolonged exposure to excessive cold can lead to severe head colds and earaches, and the result of such maladies can be a tragic and permanent hearing loss. That is why skiing, ice skating, tobogganing and snowmobile enthusiasts should exercise particular care to avoid overexposure to cold.

REALITY THERAPY

Dr. William Glasser, psychiatrist, author and founder of reality therapy, will lead a workshop on communicating effectively with children Fe. 10-11 at the University of Nevada, Las Vegas.

The workshop will be held in the Environmental Protection Agency auditorium on the UNLV campus beginning at 5 p.m. on Feb. 10. The first-day session ends at 10 p.m. with the program the second day running from 8 a.m. to 6 p.m.

Reality therapy is a technique for effective interpersonal relationships, especially between adults and children. The method, intended to give children self-awareness in all environments, is a practical technique for teachers and parents.

Workshop participants will work with Dr. Glasser and his team of facilitators in small groups. These groups will develop strategies appropriate to the ages of their children, students and clients.

Dr. Glasser is founder and director of the Institute for Reality Therapy in Los Angeles and is on the faculties of the University of Southern California and LaVerne College. This is the first time Dr. Glasser has opened his workshops to the public, according to Dr. Mark Beals, professor of special education at UNLV.

The workshop is sponsored by the UNLV Division of Continuing Education. The course may be taken for university credit or on a non-credit basis. Parents and professionals who work with children are encouraged to attend, Dr. Beals said.

For more information contact the Division of Continuing Education at 739-3394, or Dr. Beals in the Special Education Department, 739-3439.
