Walks of Life

This dynamic young talented group of seven members were formed only a month ago, with members coming from one end of the country to the other, and even went abroad to get talent to form this amazing group.

A very good show group first of all with tight vocal lines, and motion of a thousand people on stage at once, this comes from the gorgeous lead vocalist "Dimples" that has energy to share, good music and back vocal arrangement by the music director from Japan, Michiko Yoshimura, a very talented musician, not cutting any of the other musicians out, everyone holds their own part, and is an asset to this organization they named, "The Walks Of Life."
