The slaughter of children, the elderly and the innocent people; there is no place in the world that pours alcohol more freely than Las Vegas, Nevada.

Remember when you looked like you had enough to drink, and the bartender or cocktail waitress informed you, "You have had enough". Perhaps the words (you had enough) are not in the dictionary any more.

If you are picked up on a D.U.I. now, a small fine is imposed and you go to driving school. Second time, a larger fine, and school, and maybe loss of driver's license. But, what happens the third time? The first time, is it the first time drunk, or the first time caught?

Famous phrase: "Look, I can drive no matter how much I drink, I sober up when I'm behind the wheel." Next day you read the paper and it happened. They are either dead, smashed up and torn apart and in the hospital, or they have run into a pedestrian and killed them.

The sad part is when is this going to stop? Who is to blame? For sure, not the Traffic Cop. All the cop can do is give you a ticket and pick up the pieces. Are the bar's and clubs at fault? (to some extent). The courts and the lax of enforcing the law by the courts are to blame. The revolving door on D.U.I. has to stop.

We need stronger laws on driving under the influence. Heavier fines, loss of driver's license (mandatory), and jail time on all D.U.I. with an alcohol count of over 1.05.

Alcohol, the intoxicating agent in fermented and distilled liquors.

Alcoholism, the state of being poisoned by excessive drinking.

Sid Nasby

anyone to change their color, just don't let your color be a barrier any longer. Stand up for your own rights, AS INDIVIDUALS!! If you are qualified for work, don't let your color get in your way of thinking. Just, go out after what can be yours, as well as the next mans. The next time the Police Department, or the Highway Patrol, or ANY other agency, for that matter, opens up for hiring, DON'T sit down and say, "Why should I apply? I wont be hired, because the WHITE man/woman will be hired before they even consider me." Go out and fill out the applications, take the tests, and PROVE to YOURSELF as well as the rest of the world that YOU ARE JUST AS GOOD AS ANYONE ELSE!!!
In other words, don't complain, do something about it.

are forced to stand together. The Black businessman is not making any money, mother's sons are being shot down in cold blood, and the city is sanctioning and making it legal. Our people are unemployed and those that have jobs are being harassed and run off of the ones they have. Very few ever get promoted anyway. All department heads of all jobs are white, and I suspect that Blacks are not even being considered for top positions.
Frankly speaking, I wonder what the hell this town thinks about Blacks in the first place. I am certainly at a loss for words.
The West side has got to get some respect. We have got to have some economic respect.
We don't even have enough red lights, and no commercial lights in the Black business district. Talk about saving energy, well, the Black businessman ought to get an energy saving medal, because he doesn't have any lights.
Why hasn't somebody approached the Gaming Commission about a quota system of some kind on gaming licenses or maybe full gaming license in the West Las Vegas area, and face lift the Jitney Bus Service to bring tourists in and out. We could even help fill up those empty garages downtown if we were permitted to participate in the economics of Las Vegas.
Come On West Las Vegas! Let us unite and better the West side area.

It pays to advertise in the
