Matt Kelly 6th Grade Center

Dear Parents,

Matt Kelly Sixth Grade Center has again provided a well rounded educational experience for its students. Throughout the year the social studies classes have studied people and their cultures.

As an extra activity several classes have sponsored international food days. On these days students and parents are able to participate in the learning process by sharing a part of their culture.

During the fall quarter Ms. Hodges and Ms. Leggett, found that special projects take a lot of will power. This quarter Mr. Shipman and Ms. Mortillaro have been experiencing the same. Parents, students, and teachers have enjoyed the success of these projects, so . . . we feel it was worth it.
